Purpose

To define the standard procedure for raising an AMR (Automated Meter Reading) installation request to ensure accurate meter reading and efficient service delivery.

When to Use

An AMR installation request should be raised when:

- A customer requests automated meter reading.
- A meter needs to be upgraded to AMR-compatible technology.
- AMR installation is required as per company policy or technical requirement.

Steps to raise an AMR installation request

Login to Portal

The AMR installation request is submitted and created successfully.

But it will be on hold until the technical query for this MPRN which gets automatically created on the submission of the AMR installation request for the non-pulsing meter is resolved.

After the technical query is resolved, the AMR installation request will be going to AMR system for further processing.

The AMR Request has been created Successfully and is currently on hold due to the existing meter being non-pulsing.

The reference number is REQ-00006047

NGM will arrange for the exchange of the non-pulsing meter and process the AMR request once complete.
