 Raise Work Request..... 5

Purpose

To define the standard procedure for raising an Exchange Meter Work Request (WR) to process a meter specification change, ensuring safe handling and correct job allocation to the field team.

When to Use

This procedure must be followed when an Exchange Meter job requires a specification change and the job is classified as Free of Charge. It applies in cases where the existing meter specification needs correction and upgrade.

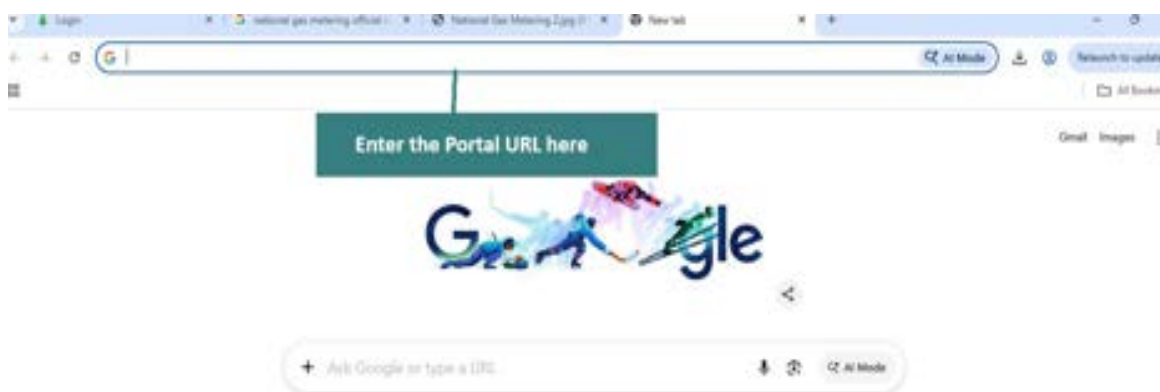

Steps to raise an Exchange Meter Work Request for Specification change

Login to Portal

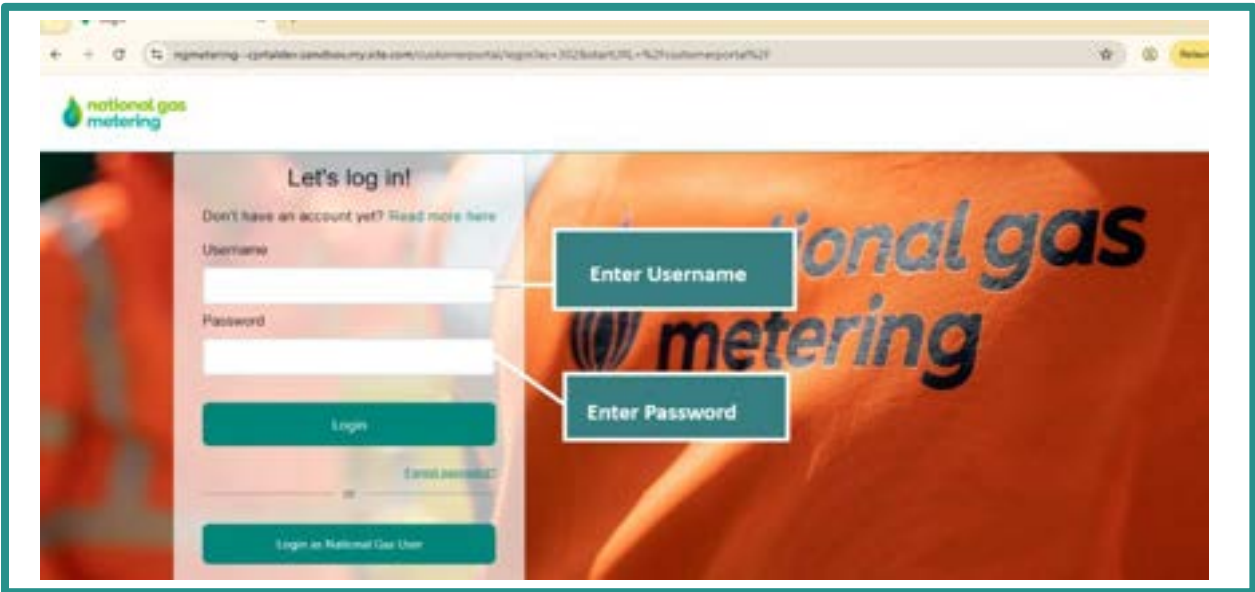

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

The URL to login to the customer portal is:

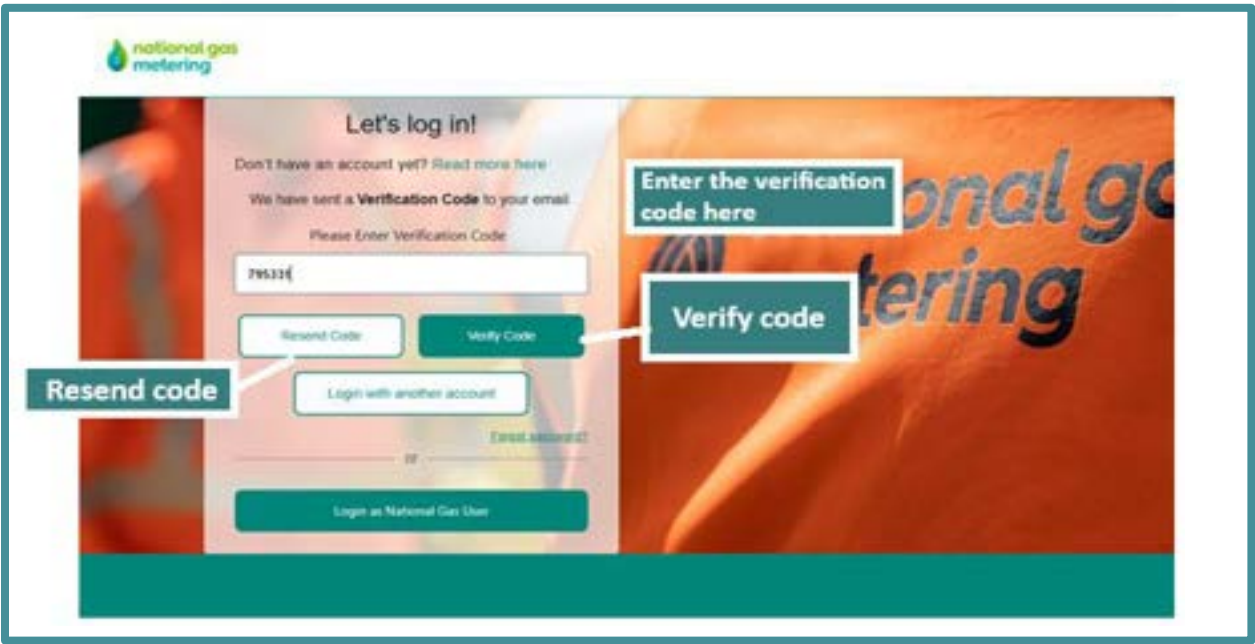

<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter.

Enter the username and password, click on login.

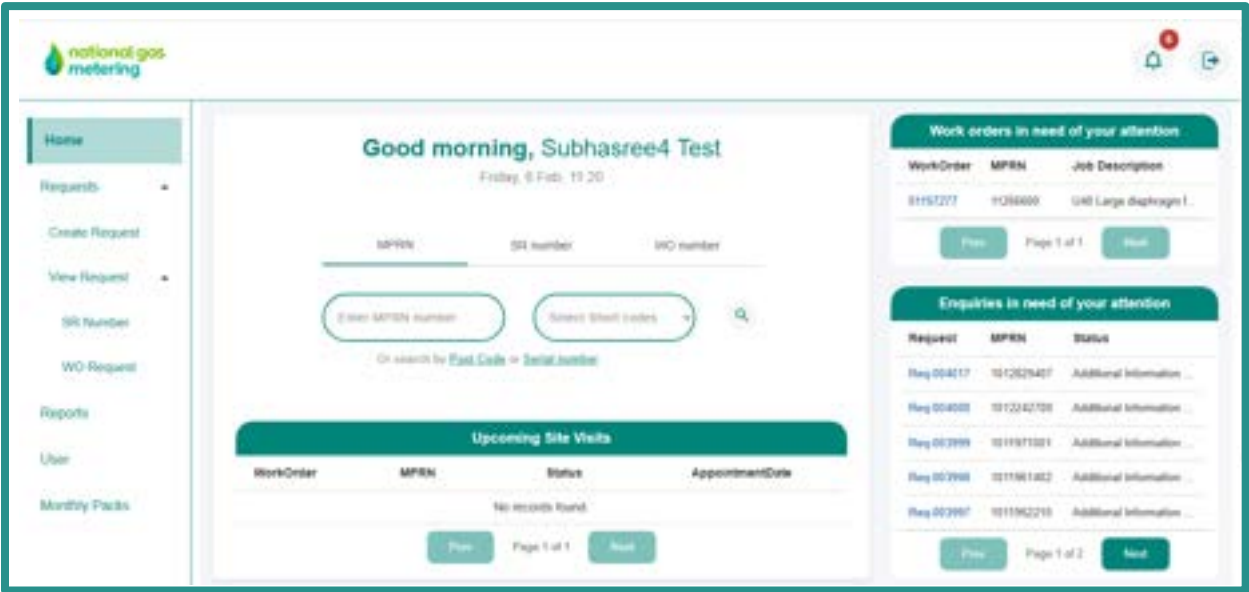

Enter the verification code which is sent to the associate mail id and click on verify code.

Customer Metering Portal

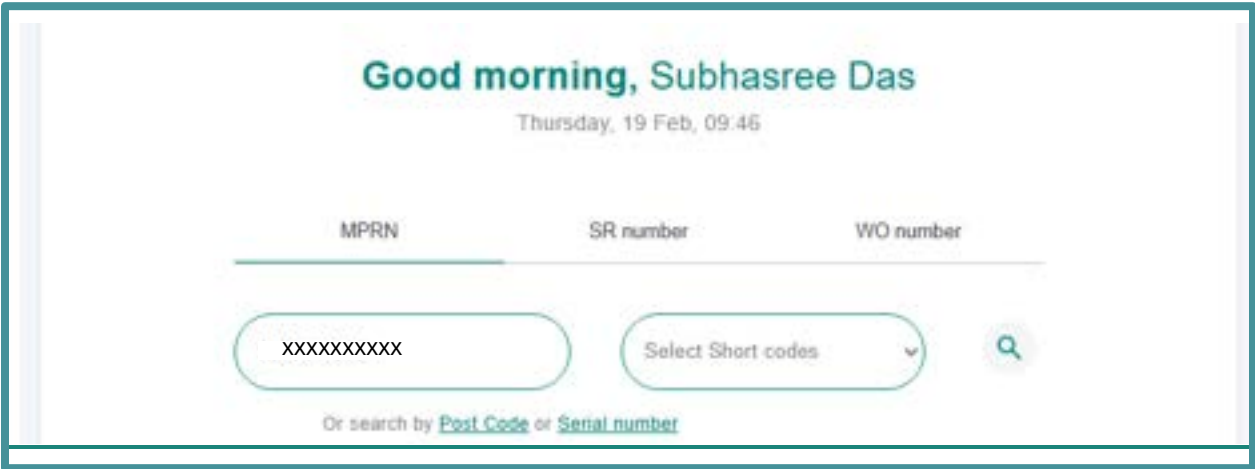

After logging in, the home screen of the customer portal is displayed.

The Home Screen will display the MPRN Search panel in the Centre of the screen.

Search and Open MPRN

Enter the MPRN and click on search icon

MPRN overview page with MPRN details is displayed.
Validate the Supplier short code, MPRN category (e.g., Residential or Commercial), address and site details, Meter and converter (if present) details.

More details >

Select Request Type

Work request

Customer initiated request for works on the meter installation.

Selected

Urgent Work request (Off gas)

To support customers who are currently 'off-supply' due to a gas meter fault/Residential PPVCR meter fault or Commercial TFM

AMR request

Request for services related to Automated Meter Readings

Appoint/De-Appoint

Request Appoint/Deappoint supply on an MPRN

Data Queries (DQ)

To query the data NDM holds for a given MPRN

Technical Queries (TQ)

To query a suspected fault on an NDM Asset

Under Select Job type , select Exchange option

Select sub type as Specification Change

Select Job Type

Install

Request to install an asset onto a metering installation

Exchange

Request to exchange an asset on a metering installation

Selected

Remove

Request to remove an asset on a metering installation

Meter Move

Request to move an asset on a metering installation

Other Visits

Request for other work activities on the metering installation

Select Sub Type

Specification Change

Request for a Meter Upgrade/Downgrade in size or change to meter type (Credit/Pre-Pay)

Selected

Accuracy Test

Request to exchange for a Meter accuracy test

GPS

Request to exchange a Non-Pulsing Meter

Housing

Request to exchange the Meter Housing

Fill up the mandatory technical questions.

Specification Change

Please confirm the Service Pressure Tier*

Low Pressure

Please confirm the required metering outlet pressure (mbar)*

21

Please provide the expected peak hourly load (kWh)*

Based on your initial inputs, we believe the following meter size would meet your requirements.

Select Meter Size

Is the new meter going into the existing or new service location?*

☐ Existing ☐ New

Are there any special electric interfaces required?*

☐ Yes ☐ No

Is a meter by-pass required?*

☐ Yes ☐ No

Is a converter required?*

☐ Yes ☐ No

Is a twin-stream pressure reduction installation required?*

☐ Yes ☐ No

Do you require an AMR device?*

☐ Yes ☐ No

Show Prices for Job

Outlet Pressure (Mbar)	Expected peak hourly load (kWh)	Meter Model
0 - 21	0 - 64	U6
0 - 21	65 - 171	U16
0 - 21	172 - 267	U25
0 - 21	268 - 427	U40
0 - 21	428 - 693	U65
0 - 21	694 - 1066	U100
0 - 21	1067 - 1796	U160
0 - 21	1797 - 99999	Rotary
0 - 21	1797 - 99999	Turbine
22 - 99999	0 - 99999	Rotary
22 - 99999	0 - 99999	Turbine

For the field “**Please provide the expected peak hourly load (kWh)**” enter any value in the range 65-171 as this is the range of peak hourly load for U16 meter model.

Based on the entered expected peak hourly load value meter model size is determined automatically to U16
