- Viewing the Resolution of a Data query 10

Purpose

To define the standard procedure for viewing resolution of a Data Query (DQ) in customer portal.

Steps to raise Data Query

Login to Portal

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

The URL to login to the customer portal is:
<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter.

Enter the username and password, click on login.

Enter the verification code which is sent to the associate mail id and click on verify code.

Customer Metering Portal

After logging in, the home screen of the customer portal is displayed.

The Home Screen will display the MPRN Search panel in the Centre of the screen.

Search and Open MPRN

Enter the MPRN and click on search icon

Customer Metering Portal

MPRN overview page with MPRN details is displayed.
Validate the Supplier short code, MPRN category (e.g., Residential or Commercial), address and site details, Meter and converter (if present) details.

More details >

Select Request Type

☐ Work request

Customer initiated request for works on the meter installation.

☐ Urgent Work request (Off gas)

To support customers who are currently 'off-supply' due to a gas meter fault/Residential PPVCR meter fault or Commercial TFM.

☐ AMR request

Request for services related to Automated Meter Readings.

☐ Appear/De-Appear

Request Appear/Disappear supply on an MPRN.

☒ Data Queries (DQ)

To query the data NQM holds for a given MPRN.

Selected

Under Enquiry reason code, select any of the required reason code

Also select Enquiry category.

Enquiry Reason Code

☐ Address Amendment Enquiry

To request an MPRN's address held by NQM to be amended

☒ Asset Data Enquiry

To query the asset details held by NQM

Selected

☐ Crossed Meter Enquiry

To inform NQM of a crossed meter situation, i.e., details of 2 or more neighbouring meters on NQM's system need to be swapped.

☐ Replicate MPRN Enquiry

To inform NQM of an MPRN confirmed by Xserve to be a duplicate

Enquiry Category

☐ Converter Enquiry

To query the converter (corrector) details held by NQM

☐ Correction Factor Challenge

To query the correction factor held by NQM

☐ Incorrect asset details

To query the meter details held by NQM

☒ Meter Status Enquiry

To query the Asset Status held by NQM, e.g., Live or Capped

Selected

☐ Missing exchange

To inform NQM of a Missing Exchange at site.

☐ Missing removal

To inform NQM of a Missing Removal at site.

Fill up the enquiry details.

Sample Enquiry Instruction

Our customer states that the Asset status is different to what it shows in Maximo. Maximo shows it as "U". However our customer states that it is "Broken" and has been since "28/02/2026". Please investigate. Additional Information This Query code should only be used for meters that are still on site and not removed meters, this type of Query should be submitted using the ADQ code. The Asset status codes that can be challenged are LI, GA, CL, CU, SP and RT.

Maximo Asset Status *

U

Customer Asset Status *

Broken

Customer Status Date *

28/02/2026
