Purpose

This procedure explains how to select and book the appropriate appointment date and time slot for the jobs when raising an urgent work request for an NGM meter.

When to Use

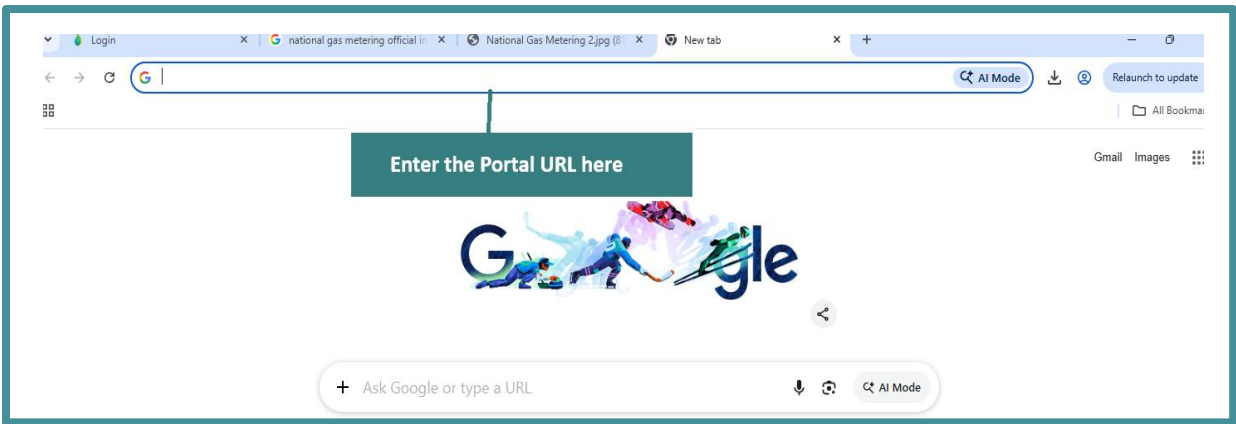

Appointment date and time slot selection is required during urgent work request creation to define when engineer attendance will begin or when the work is considered to have started.

Procedure to select Appointment Date & Time while Raising Urgent Work Request

Login to Portal

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

The URL to login to the customer portal is: <https://ngmetering-cptaldev.sandbox.my.site.com/customerportal/> and press enter.

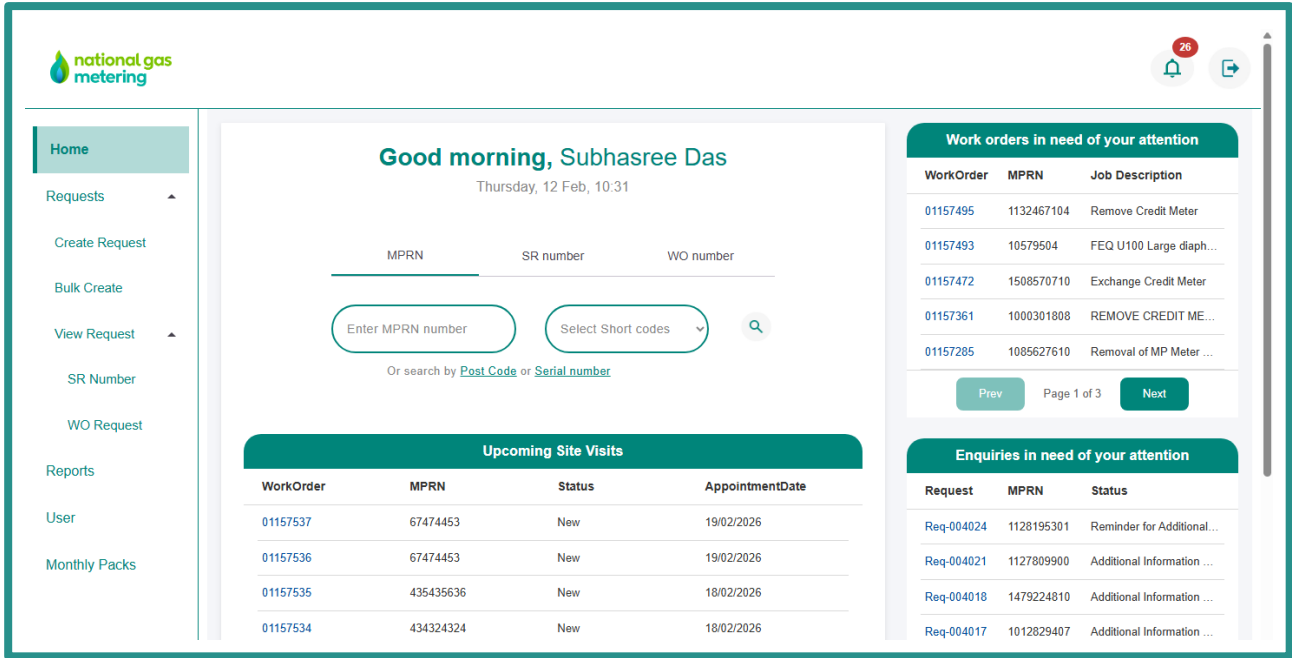

Customer Metering Portal

Click on Login as National Gas User button in the login screen of the portal

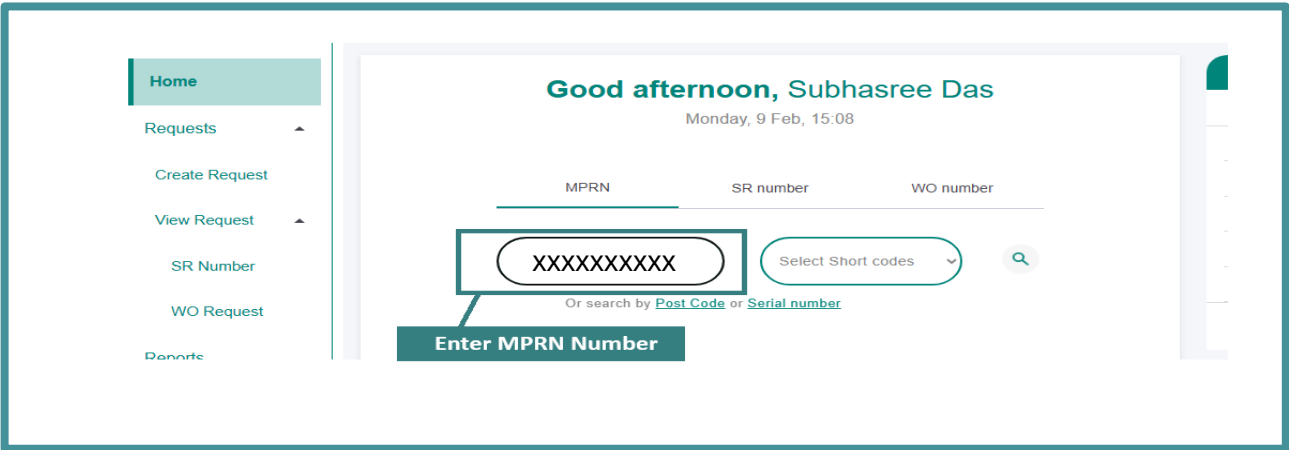

After logging in, the home screen of the customer portal is displayed.

The Home Screen will display the MPRN Search panel in the Centre of the screen.

Search and Open MPRN

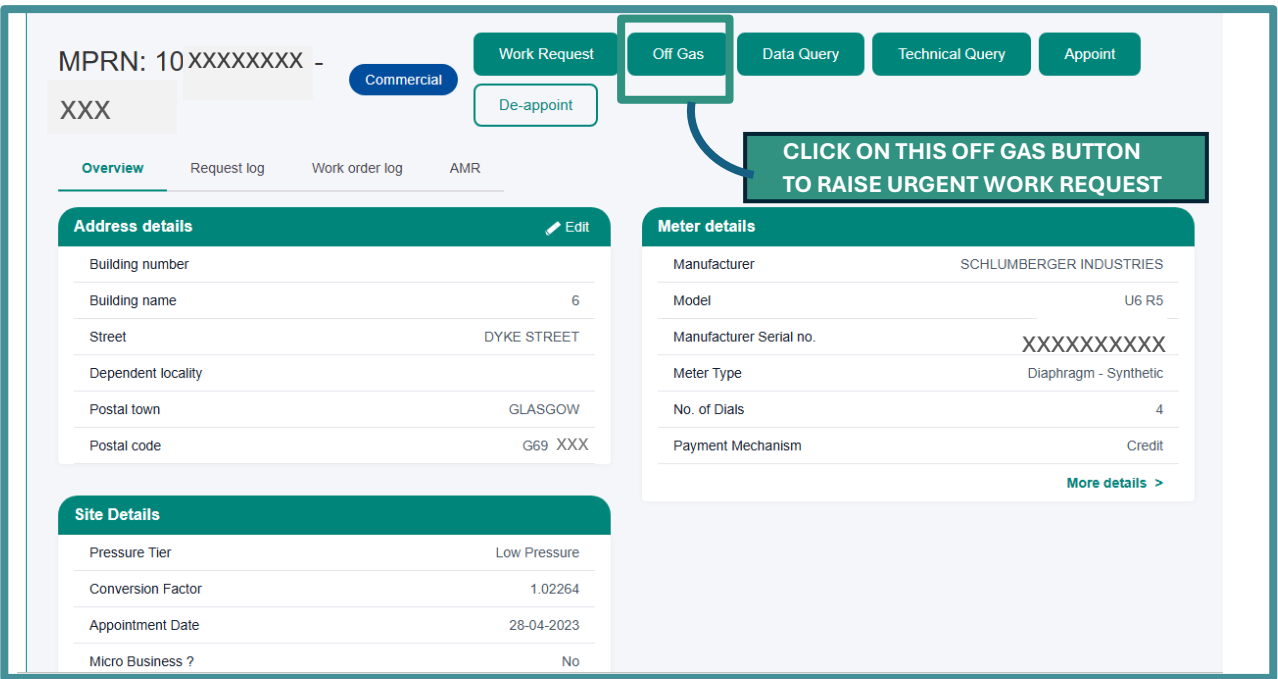

Enter the MPRN and click on search icon

MPRN overview page with MPRN details is displayed.

Validate the Supplier short code, MPRN category (e.g., Residential or Commercial), address and site details, Meter and converter (if present) details.

Click on Off Gas button to raise an urgent work request for the MPRN

Raise Urgent Work Request

Create request page is displayed with MPRN , supplier short code , address details and asset details.

Under select request type Urgent Work Request (Off Gas) is pre-selected automatically

More details >

Select Request Type

☐ Work request

Customer initiated request for works on the meter installation.

☐ Appoint/De-Appoint

Request Appoint/Deappoint supply on an MPRN.

☒ Urgent Work request (Off gas)

To support customers who are currently 'off-supply' due to a gas meter fault(Residential PP/CR meter fault or Commercial TFM).

Selected

☐ AMR request

Request for services related to Automated Meter Readings.

☐ Data Queries

To query the data NGM holds for a given MPRN.

☐ Technical Queries

To query a suspected fault on an NGM Asset.

Under Select Job type, Job type is automatically selected. If not then select the required job type

Select Request Type

☐ Work request

Customer initiated request for works on the meter installation.

☐ Appoint/De-Appoint

Request Appoint/Deappoint supply on an MPRN.

☒ Urgent Work request (Off gas)

To support customers who are currently 'off-supply' due to a gas meter fault(Residential PP/CR meter fault or Commercial TFM).

Selected

☐ AMR request

Request for services related to Automated Meter Readings.

☐ Data Queries

To query the data NGM holds for a given MPRN.

☐ Technical Queries

To query a suspected fault on an NGM Asset.

Select Job Type

☒ Faulty Credit

To attend a U6 size Credit meter fault

We recommend this based on the asset details

National Gas Metering | National Gas Metering Customer Portal| Prepared by: Subhasree Das, Wipro Limited5

Selecting Start time for the Urgent Work Request

Select the start time of the job. User must select one of the following start options:

- **Start Now** – This option is used when engineer will attend the job immediately.
- **Pick Date and Time** – Use when engineer attendance must occur at a specific planned time and date.
- **Retrospective** - Use when urgent work has already been performed and must be recorded in the system. This option is only available to National Gas User

If asset details are incorrect call: 0800 111 999

Select Start

☐ **Start Now**
For an engineer to attend within the agreed SLA upon submission of the request.

☐ **Pick Date/Time**
For an engineer to attend within the agreed SLA from the start time of the appointment slot selected.

☐ **Retrospective**
To raise a request on a past dated appointment for retrospective completion by NGM.

- **Start Now**

User have to select this option when the job requires immediate start

Steps:

Select Start Now.

Fill in the Contact details (on-site) information

Check the Consent box and click on submit request button

Customer Metering Portal
