Purpose

This document guides users on how to navigate the home screen of the customer portal and access key functions such as searching MPRNs, Creating requests, viewing SRs or Workorders and checking reports

Steps to Navigate to the Home screen

Users can navigate to the home screen of the customer portal by following the below steps:

Open any web browser (chrome/edge) in the system and enter the below URL in the URL bar

The URL to login to the customer portal is:

<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter

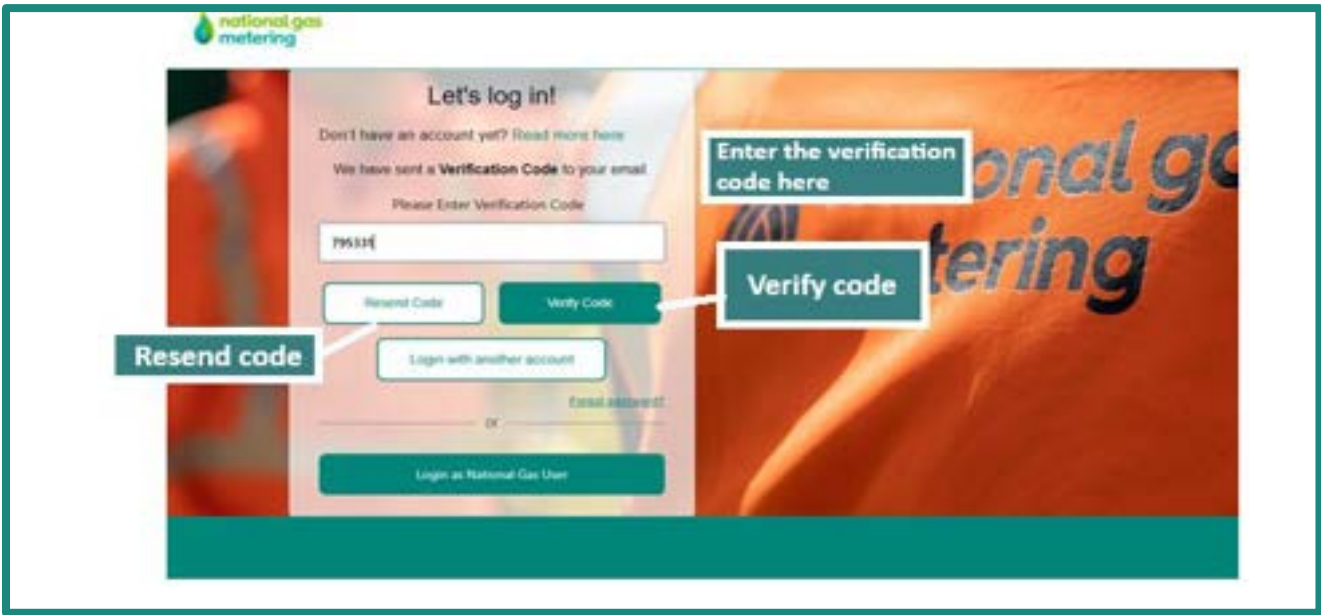

Enter the username and password, click on login

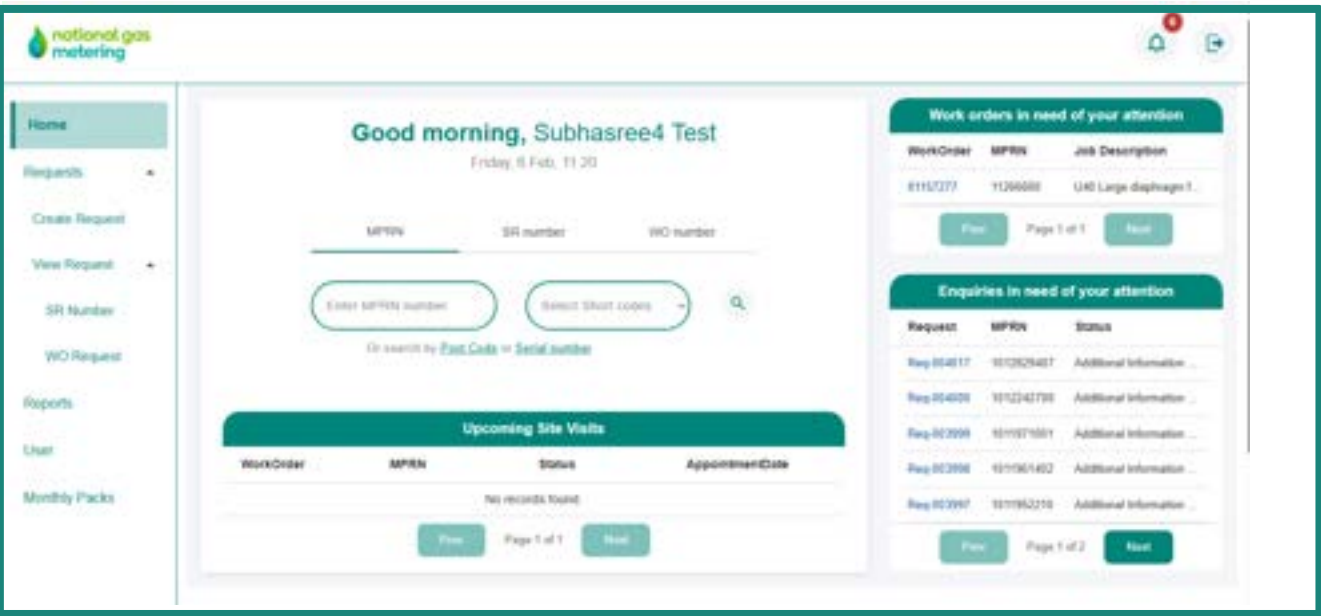

Customer Metering Portal

Enter the verification code which is sent to the associated mail id and click on verify code .

If verification code is not received in the email , then click on Resend code and enter the resent code to the verification code field and click on verify code

User is now logged in to the portal and home screen of the customer portal gets loaded

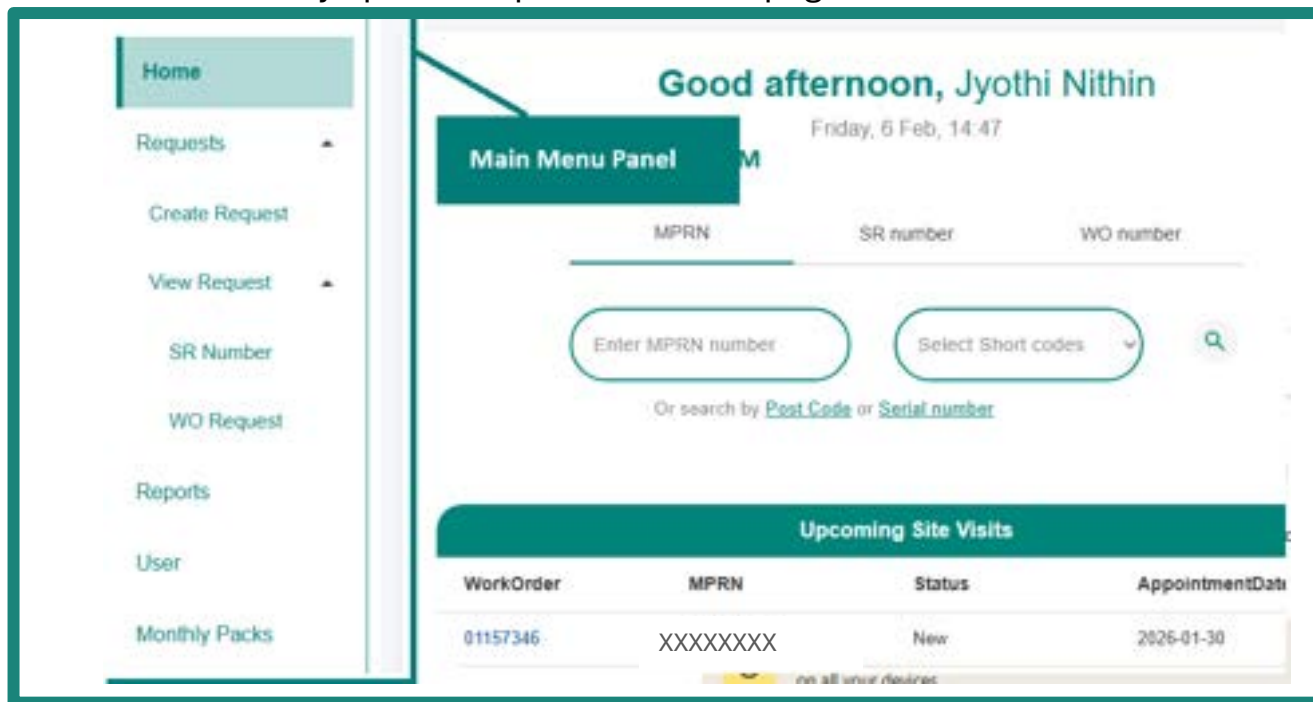

Home screen Layout Overview

The Portal home screen consists of the following sections:

Main menu Panel

The Main menu Panel is located at the left side of the home screen and provides access to key modules of the portal.

Users can click any option to open the related page

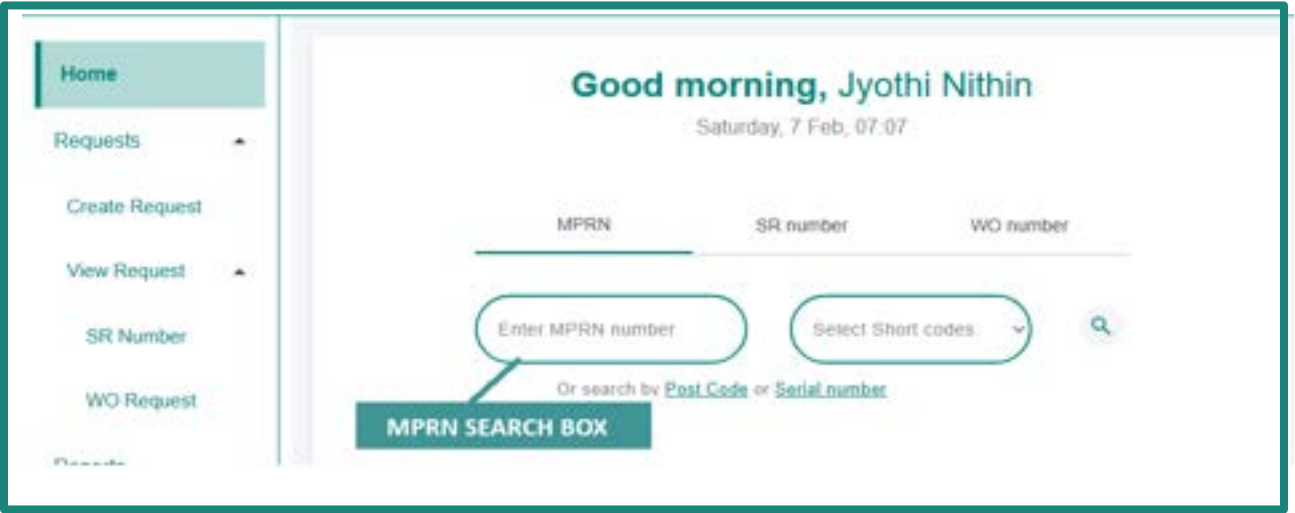

- **Home** – Used to navigate back to the home screen from any page in the portal
- **Requests**
 - **Create Request**- Used to raise any new service request like work request, urgent work request (off gas), Appoint/deappoint, AMR request, Data queries, Technical Queries
 - **View Request** – Used to search and view existing requests
 - **SR Number**- Allows search using Service request number
 - **WO Request**- Allows search using Work order number
- **Reports**- Used to access different reports
- **User**- Used to access user management
- **Monthly Packs**- Contains document which are required to be accessed by the user monthly.

Search Panel

Located in the center of the screen, this section allows users to search using:

- MPRN number
- SR number
- WO number
- Post codes
- Meter Serial number

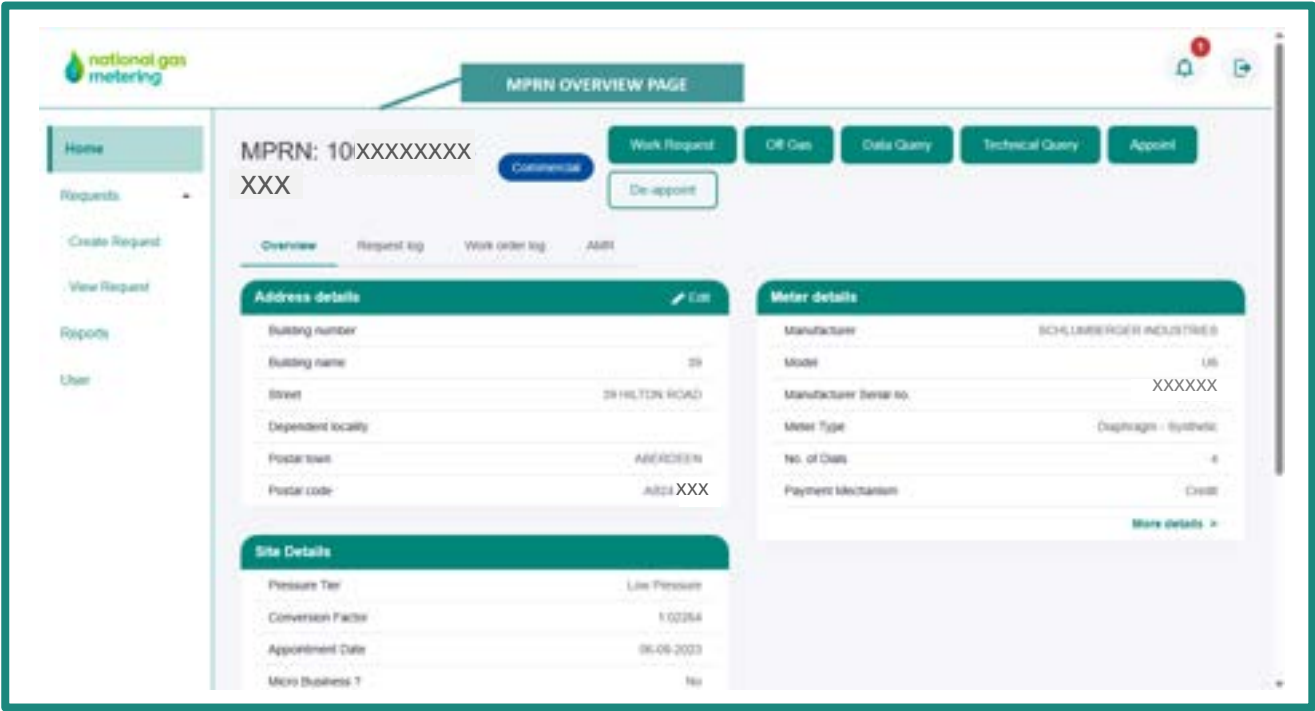

Steps to search MPRN number:

Select the MPRN tab

Enter the MPRN and click on the search icon or press the enter key on the keyboard

MPRN overview page with MPRN details gets loaded

Steps to search SR number:

Select the SR number tab

Enter the SR number in the search box and click on search icon

SR details page is displayed.

Dashboard View

Dashboard View provides users with a quick summary of upcoming site visits, pending enquiries or workorders that require user action.

Users can review this panel to plan daily activities and track the progress of the workorders raised by the user

The Dashboard consists of the following sections:

A. Upcoming Site visits

This section displays all the scheduled and inprogress site visits for the workorder requests which have been raised by the user.

Upcoming Site visits

Upcoming Site Visits			
WorkOrder	MPRN	Status	AppointmentDate

PrevPage 1 of 48Next

It includes key details such as:

- Work order number
- MPRN
- Status
- Appointment Date

B. Workorders in need of your attention

This section highlights the priority workorders that require user to provide some additional site details which is requested by NGM.

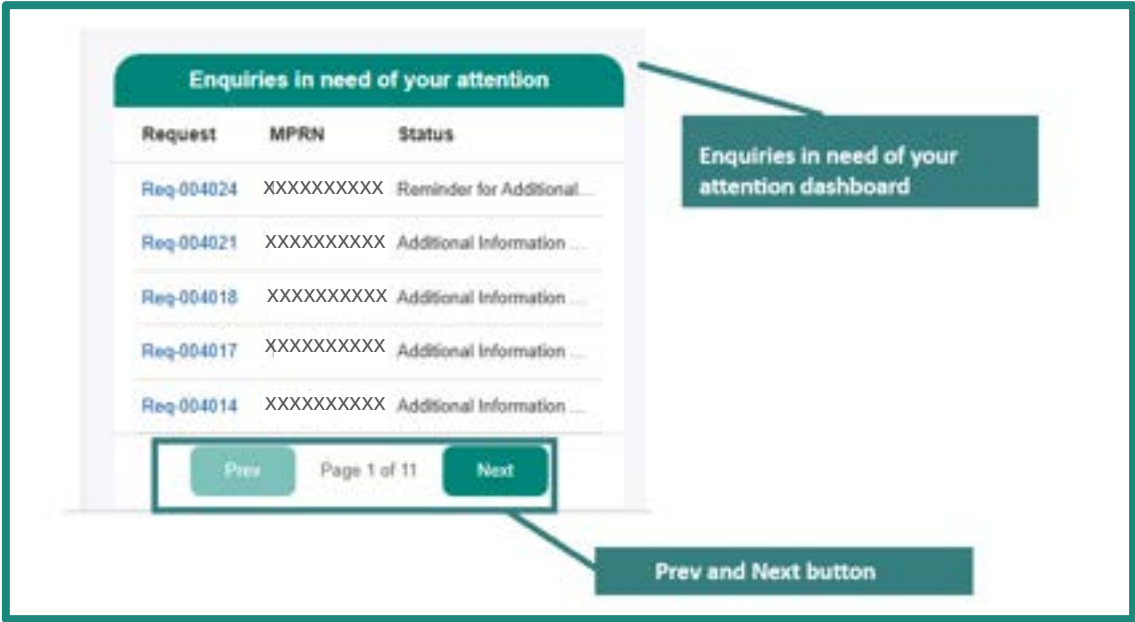

It displays:

- Work order number
- MPRN
- Job Description

C. Enquiries in need of your attention

This section consists of the enquiry service requests that requires user to provide some additional information which is requested by NGM.

It displays:

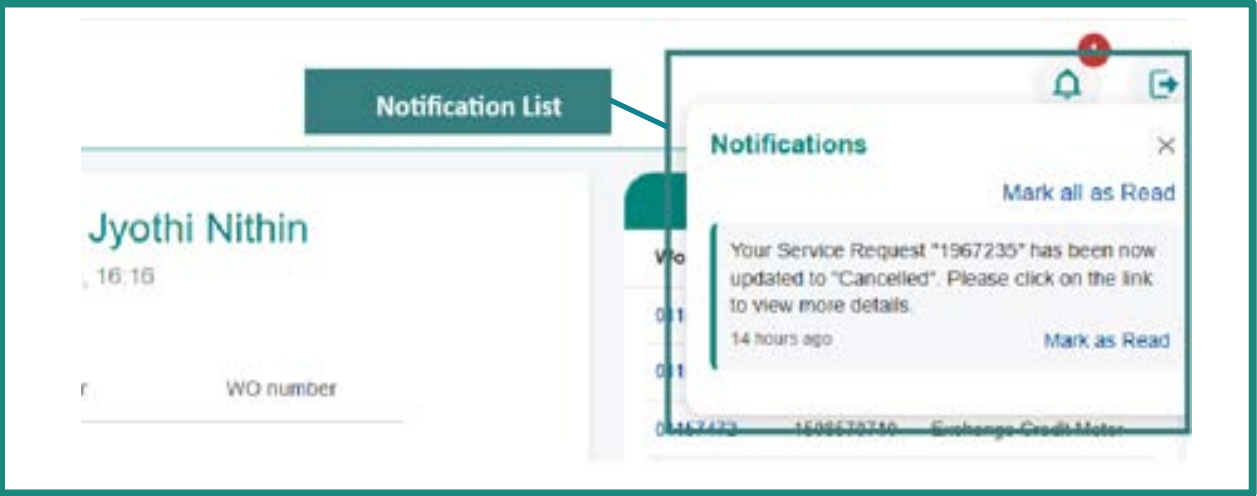

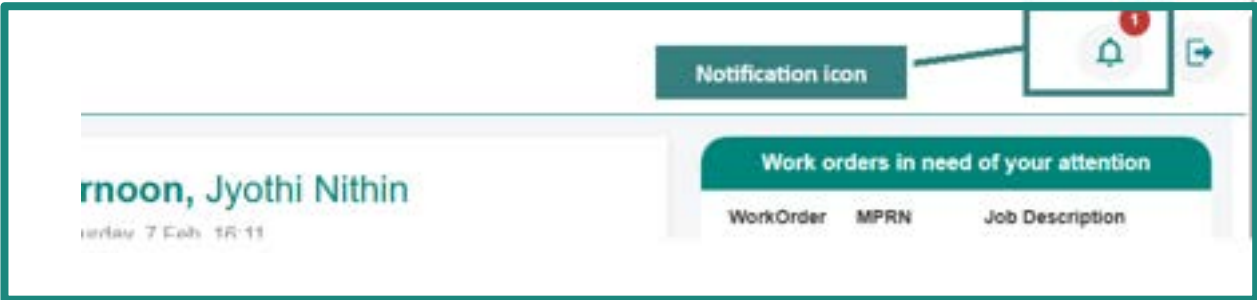

- Request ID
- MPRN
- Status

The Prev and Next buttons allow users to navigate between multiple pages of dashboards.

***Note:**The dashboard view enables users to quickly identify the outstanding tasks and take necessary actions without navigating to individual modules*

Notification bell

The Notification bell icon is available on the top right header part of the Home screen and provides real time Work order and enquiries updates to the user.

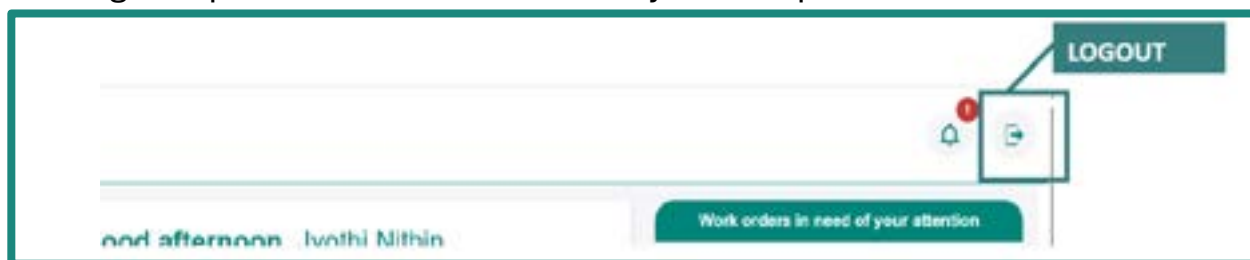

- Notifications display the current status of the workorders like enroute, arrived , completed or cancelled status
- It also displays the notification when additional information is requested for any enquiry by NGM
- The icon shows the count of new or unread notifications
- Users can click the notification icon to view detailed notifications

This functionality enables users to stay updated on progress and changes without manually checking each module.

Logout Icon

The Logout option allows user to securely exit the portal.

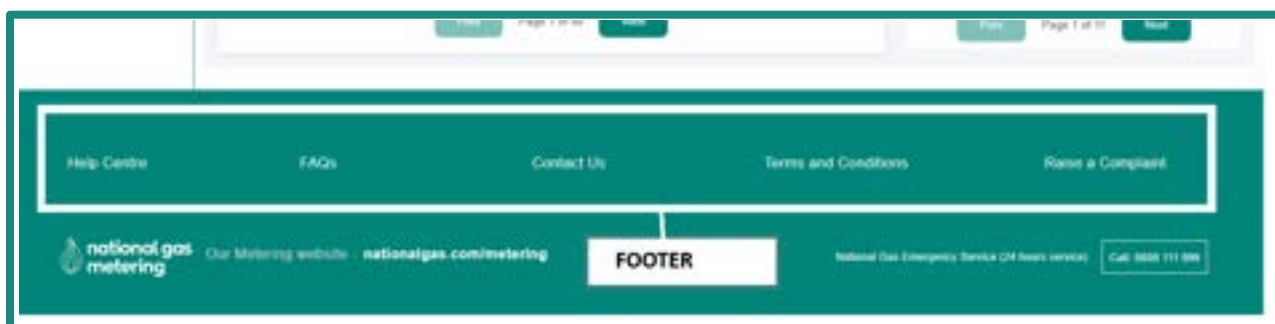

Steps to logout:

1. Click the logout icon on the top right corner of the home screen
2. The system terminates the active session and returns to the login page

Footer options

The Footer is located at the bottom of the home screen and provides access to support and informational resources related to the portal.

The following options are available on the footer:

- **Help Centre**- Provides guidance articles and user assistance for common portal activities

- **FAQs-** Displays frequently asked questions to help users resolve common queries
- **Contact Us-** Contains contact details for raising issues or seeking support.
- **Terms and conditions-** Shows legal terms governing the use of portal.
- **Raise a complaint-** Allows users to submit formal complaints or concerns.
- **National gas Emergency Service (24 hours service)-** Displays emergency contact information.

Usage Guidance:

- Users can click any footer link to open the related page in the same or new tab
- The footer should be used when users require help, policy information or need to contact support teams
- Emergency service details must be used only for urgent gas related incidents

The footer ensures that important support and compliance information is accessible from all pages of the portal.
