Purpose

To define the standard procedure for raising deappointment requests through customer portal.

When to Use

Raise a deappointment request for the following situations:

- Meter disconnected/removed.
- MPRN lost through the Change of Supplier process.
- Responsibility for the meter has changed to a new Meter Asset Manager (exchange from regulated to competitive).
- Responsibility for the meter has changed to a new Meter Asset Manager (exchange from regulated to consumer owned meter).
- Supplier Contract ceased due to change of tenancy.
- Premises have been or are scheduled to be demolished. NB this is the only scenario that a retrospective transaction will be accepted.
- End of Tenancy - to be used where there is no incoming tenant and therefore no incoming Supplier.
- Duplicate MPRN(query must be raised regarding charges) National Grid Metering would expect that the supplier will have instigated a query prior to the de-appointment submission

Steps to raise Deappointment Request

Login to Portal

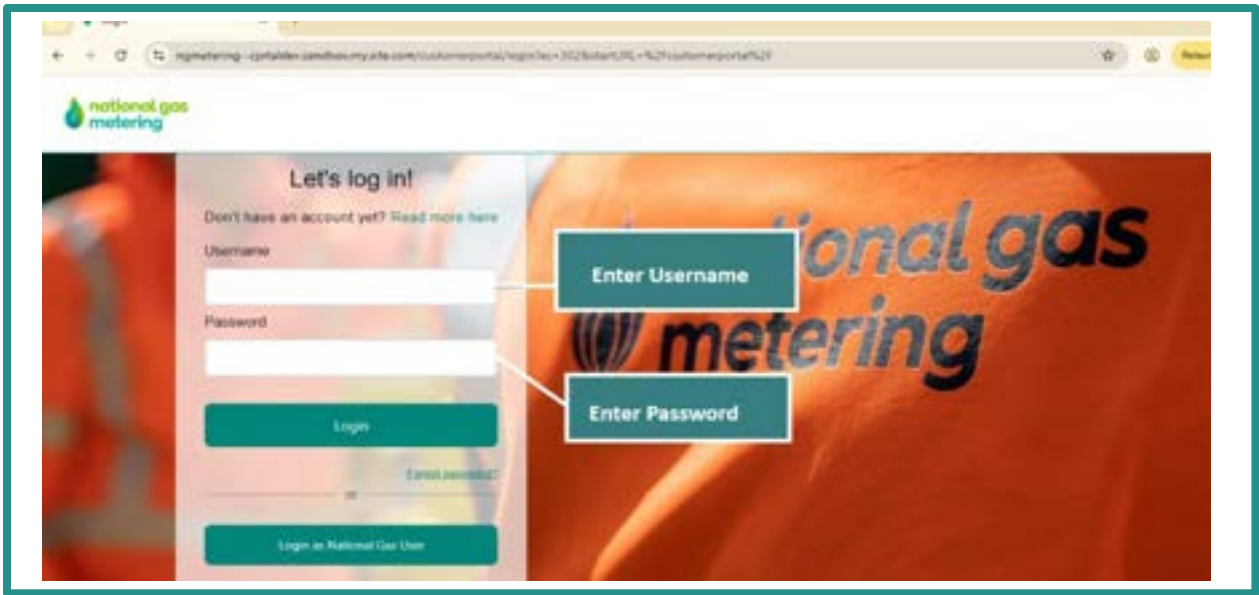

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

Customer Metering Portal

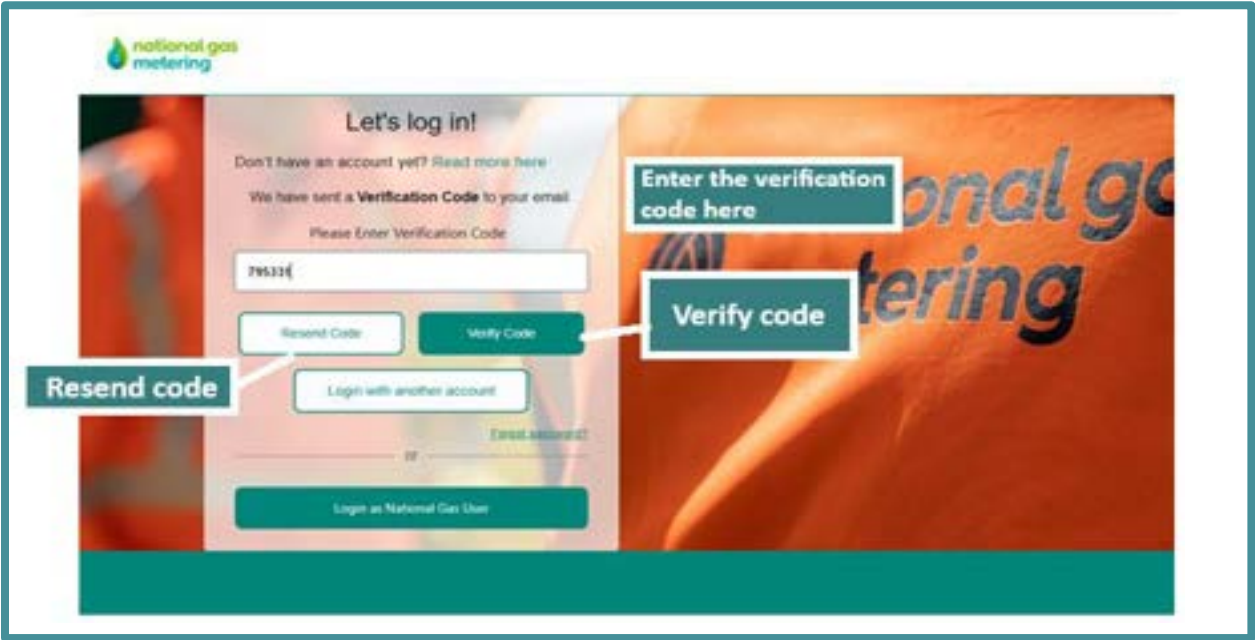

The URL to login to the customer portal is:
<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter.

Enter the username and password, click on login.

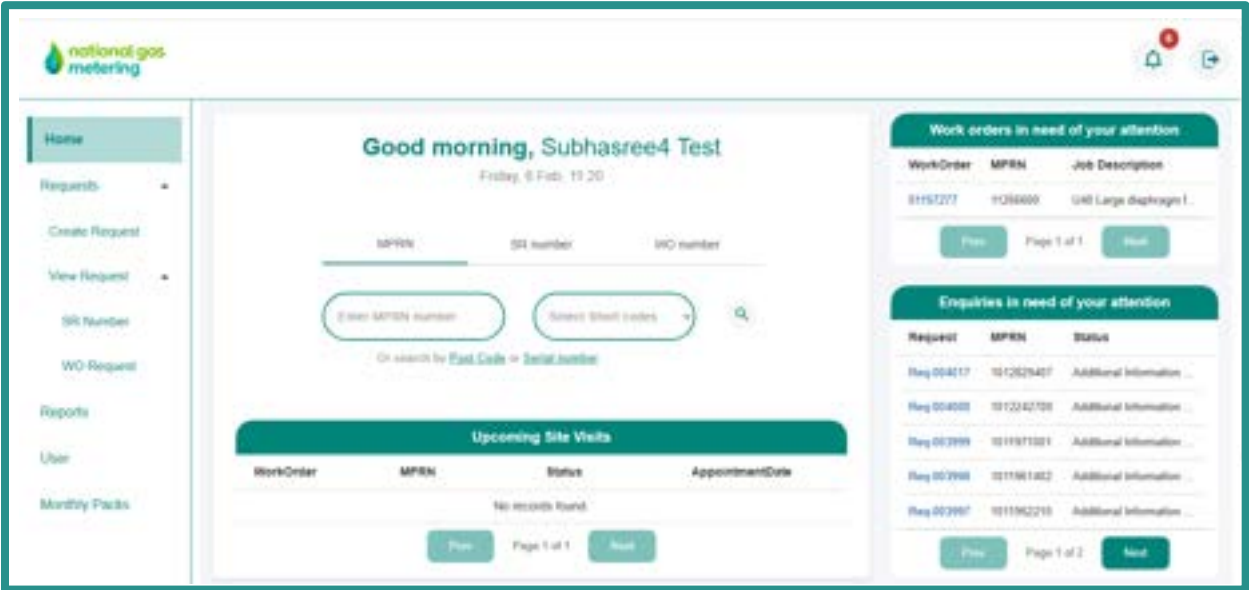

Enter the verification code which is sent to the associate mail id and click on verify code.

After logging in, the home screen of the customer portal is displayed.

The Home Screen will display the MPRN Search panel in the Centre of the screen.

Search and Open MPRN

Enter the MPRN and click on search icon
