 Raise Urgent Work Request 6

Purpose

This procedure defines the steps to raise an Urgent Work Request for an NGM meter when immediate action is required due to safety, loss of supply, equipment failure, or other critical situations.

When to Use

- An urgent work request must be raised in scenarios such as:
- Gas supply interruption
- Suspected meter fault or damage
- Safety-related concerns (leak, pressure issue, tampering)
- Customer off-gas situation
- Regulatory or compliance-driven emergency

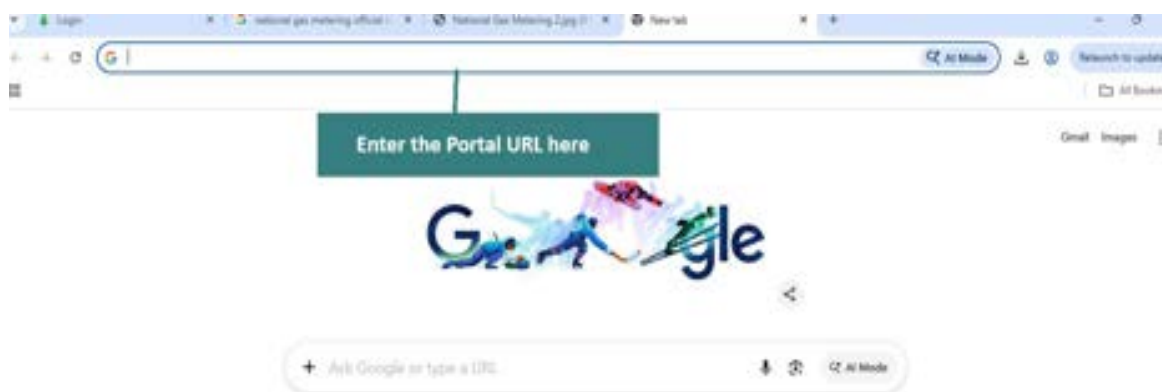

Steps to raise Urgent work Request for a NGM Meter

Login to Portal

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

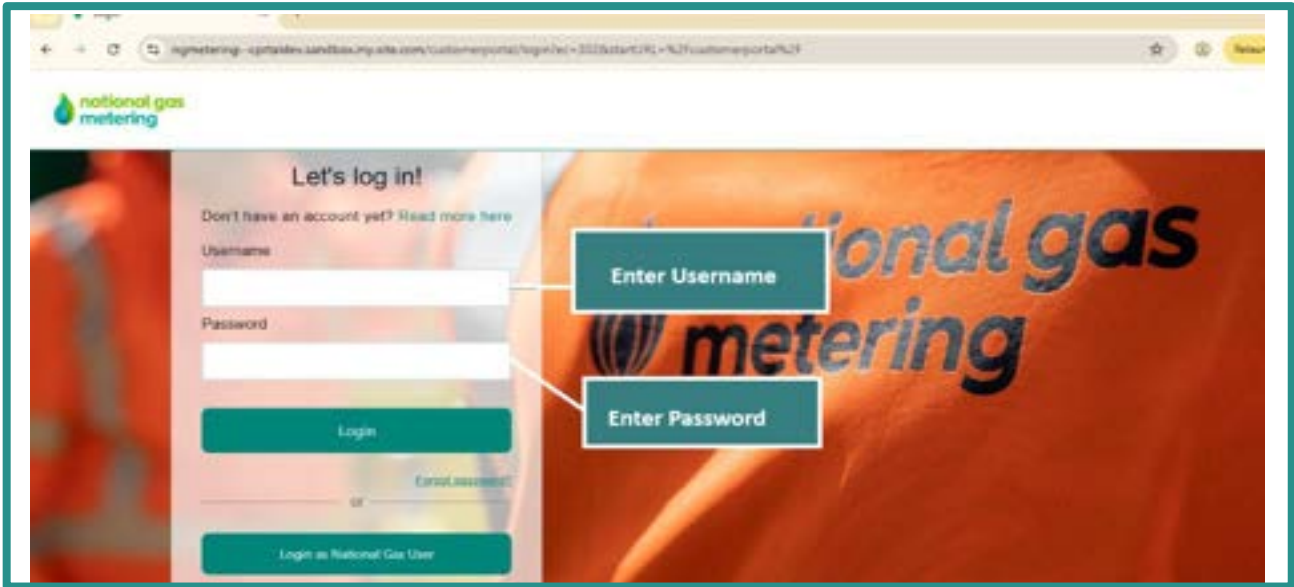

The URL to login to the customer portal is:

<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter.

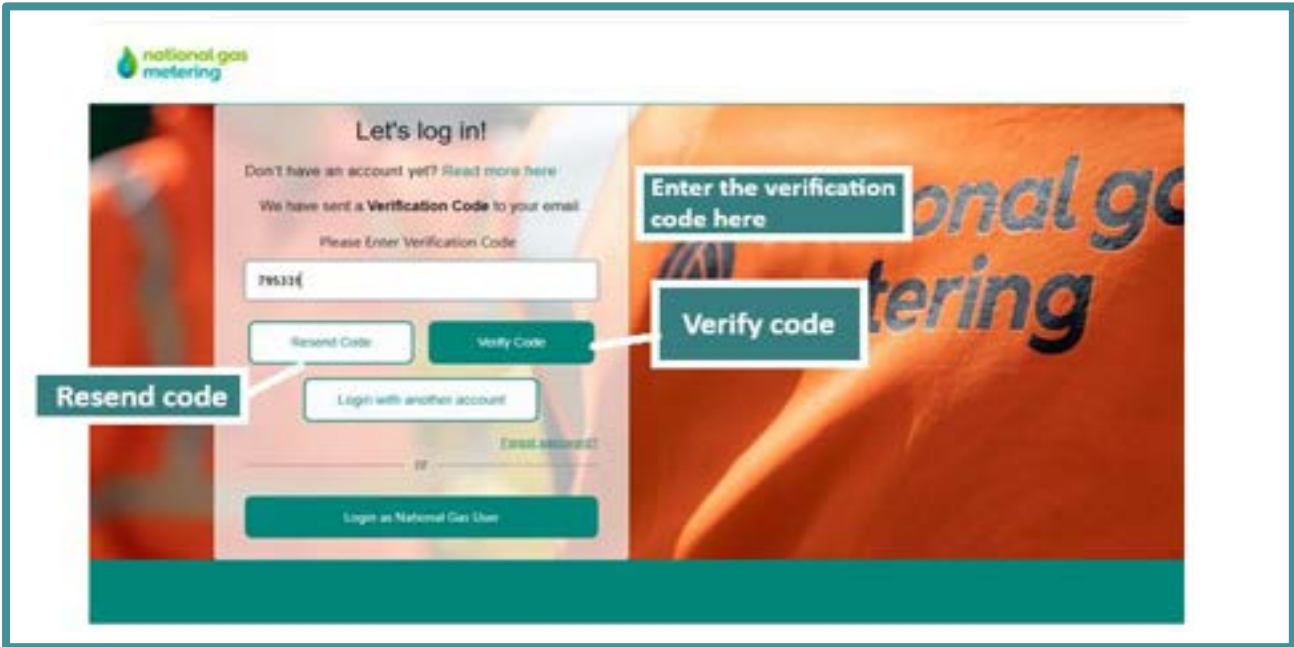

Customer Metering Portal

Enter the username and password, click on login.

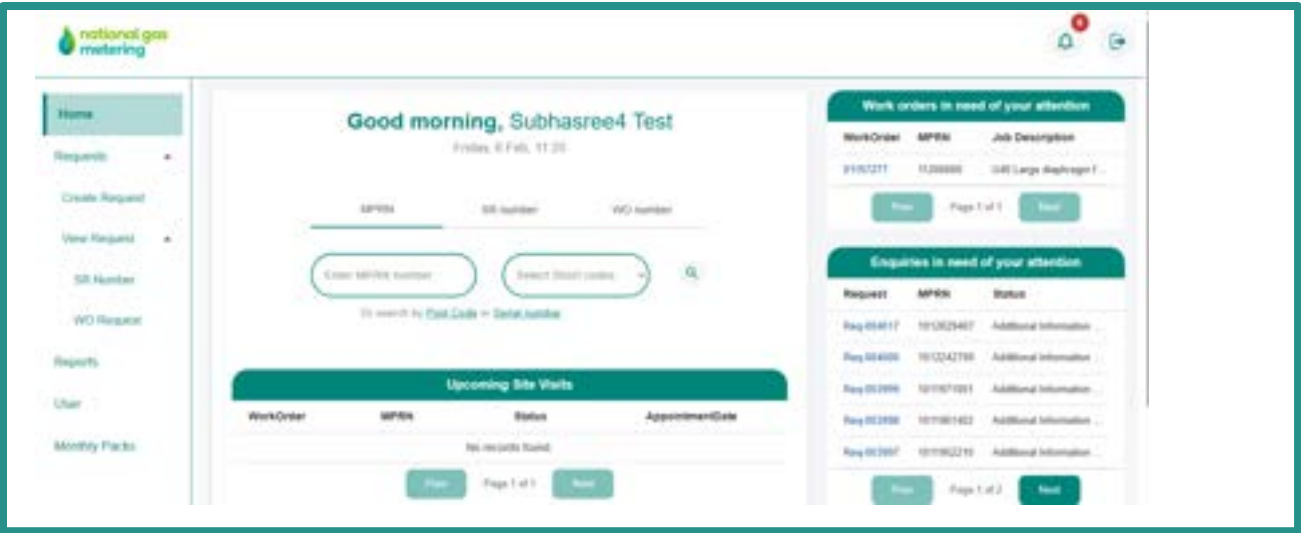

Enter the verification code which is sent to the associate mail id and click on verify code.

Customer Metering Portal

After logging in, the home screen of the customer portal is displayed.

The Home Screen will display the MPRN Search panel in the Centre of the screen.

Search and Open MPRN

Enter the MPRN and click on search icon

Customer Metering Portal

MPRN overview page with MPRN details is displayed.
Validate the Supplier short code, MPRN category (e.g., Residential or Commercial), address and site details, Meter and converter (if present) details.

The screenshot shows the MPRN overview page. On the left is a sidebar with links: Home, Requests, Create Request, View Request, Reports, and User. The main content area displays the MPRN: 10 XXXXXXXX - XXX. Below this are tabs for Overview, Request log, Work order log, and AMR. The Overview tab is active, showing three sections: Address details, Site Details, and Meter details. The Address details section includes fields for Building number, Building name, Street, Dependent locality, Postal town, and Postal code. The Site Details section includes Pressure Tier, Conversion Factor, Appointment Date, and Micro Business?. The Meter details section includes Manufacturer, Model, Manufacturer Serial no, Meter Type, No. of Date, and Payment Mechanism. At the top right, there are buttons for Work Request, Off Gas, Data Query, Technical Query, and Appoint. Below the MPRN number, there is a Commercial button and a De-appoint button.

Micro Business?	No

Meter details	
Manufacturer	SCHLUMBERGER INDUSTRIES
Model	UG
Manufacturer Serial no	XXXXX
Meter Type	Diaphragm - Synthetic
No. of Date	4
Payment Mechanism	Credit

Click on Off Gas button to raise an urgent work request for the MPRN

This screenshot is identical to the one above, but with an annotation. A blue box highlights the 'Off Gas' button in the top right navigation bar. A blue arrow points from this box to a green callout box that contains the text: 'CLICK ON THIS OFF GAS BUTTON TO RAISE URGENT WORK REQUEST'.

Raise Urgent Work Request

Create request page is displayed with MPRN , supplier short code , address details and asset details.

Under select request type **Urgent Work Request (Off Gas)** is pre-selected automatically

The screenshot shows the 'Create Request' page with the following details:

- Header:** Create Request MPRN: 10XXXXXXXX-XXX
- Address Details:**
 - Building Number: [empty]
 - Building Name: [empty]
 - Street: 18 ST MARK STREET
 - Dependent Locality: [empty]
 - Postal Town: GLASGOW
 - Post Code: G3 7XX
- Asset Details:**
 - Manufacturer: SCHUMBERGER INDUSTRIES
 - Model: US
 - Manufacturer Serial No: XXXXXXXX
 - Meter Type: Diaphragm - Synthetic
 - No. of Dials: 4
- Select Request Type:**
 - ☐ Work request: Customer initiated request for works on the meter installation.
 - ☒ Urgent Work request (Off gas): To support customers who are currently off supply due to a gas meter fault/Residential PPCH meter fault or Commercial T1 fault. (Selected)
 - ☐ AMR request: Request for services related to Automated Meter Readings.
 - ☐ Appear/De-Appear: Request Appear/Deappear supply on an MPRN.
 - ☐ Data Oversee: To query the data NGM holds for a given MPRN.
 - ☐ Technical Queries: To query a suspected fault on an NGM Asset.

Under Select Job type, Job type is automatically selected. If not then select the required job type

Select the start time of the job. User must select one of the following start options:

- Start Now – Engineer will attend the job immediately.
- Pick Date and Time – User has the ability to select a specific appointment slot for engineer attendance.

The screenshot shows the 'Select Job Type' and 'Select Start' sections with the following details:

- Select Job Type:**
 - ☒ Faulty Credit: To attend a US size Credit meter fault. (Selected)
- Select Start:**
 - ☒ Start Now: For an engineer to attend within the agreed SLA upon submission of the request. (Selected)
 - ☐ Pick Date/Time: For an engineer to attend within the agreed SLA from the start time of the appointment slot selected.

If User selects Pick Date/Time then they have to select appointment date and slot

If asset details are incorrect call: 0800 111 999

Customer Metering Portal

Fill in the Contact details (on-site) information as Title, Name, Contact Number, Email Address (optional), Meter Access Instruction (optional), Upload Photos(optional).

Check the consent box and click on submit request button .

The screenshot shows the 'Contact details (on-site)' form. It includes fields for Title (Miss), Name (Taylor), Contact number (62891298754), Email Address (taylor56@gmail.com), Meter access instructions (Call on reaching site for access), and an Upload Photos (Optional) section with a 'Select photos from device' link. A green arrow points to the 'Submit Request' button with the text 'Check the consent box and click on Submit Request'. Another green arrow points to the 'Submit Request' button with the text 'Fill in the contact details'.

Request is created successfully and in the pop up Service request number with Job SLA is displayed

The screenshot shows a 'Request submitted' pop-up message. The message states: 'Request successfully submitted on the 11/02/2026 at 15:35', 'Service request number created: SR-1968022', and 'Engineers will be there within the next 4 Hours'. There is an 'Ok' button at the bottom right of the pop-up.

If the user selects Pick date and time while raising Urgent Work Request then the Request submitted pop up also contains the job appointment date and time slot.
