Purpose

This section explains the process to search for a Meter Point Reference Number (MPRN) in the portal and validates that the correct property and work order details are retrieved before proceeding with any request or activity.

Steps to Search MPRN

Navigate to Home Screen

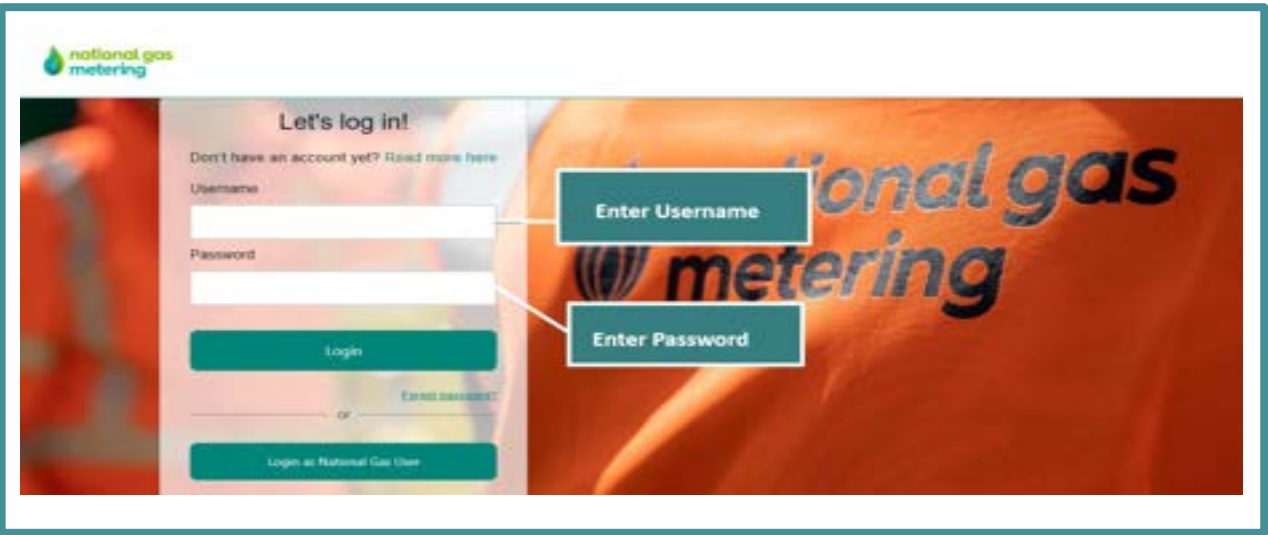

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

The URL to login to the customer portal is:

<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter.

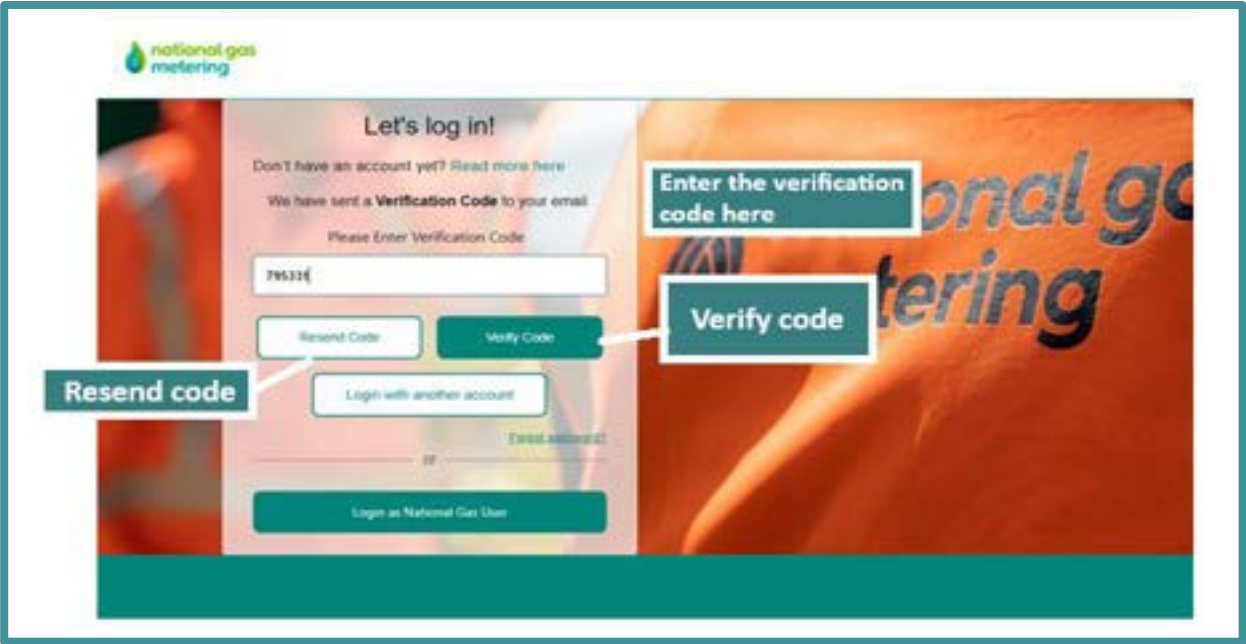

Enter the username and password, click on login.

Customer Metering Portal

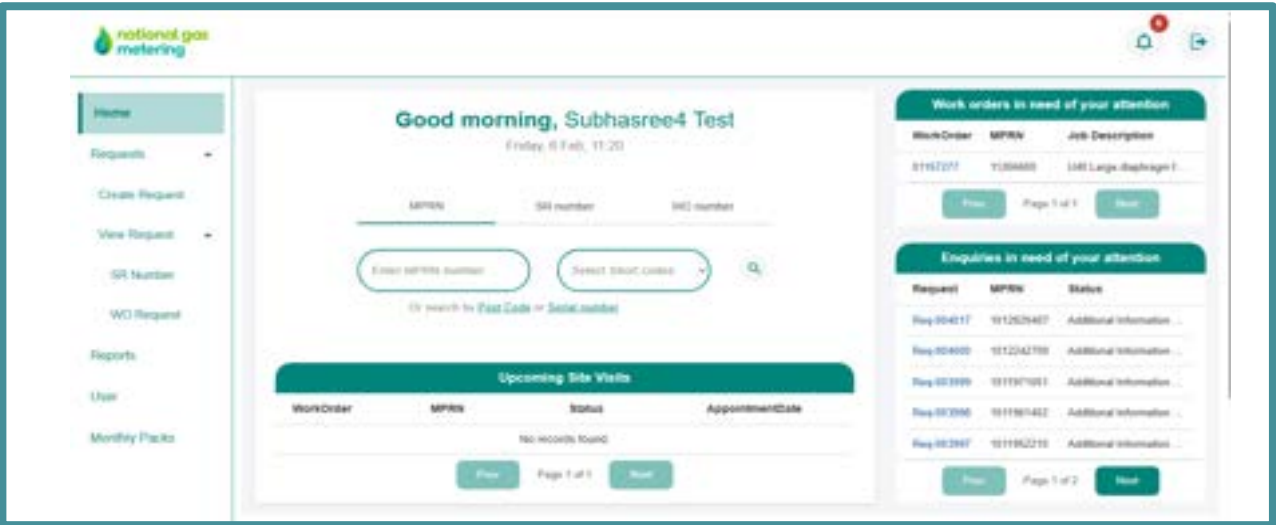

Enter the verification code which is sent to the associate mail id and click on verify code.

If verification code is not received in the email, then click on Resend code and enter the resent code to the verification code field and click on verify code.

User is now logged in to the portal and home screen of the customer portal gets loaded.

The Home Screen will display the MPRN Search panel in the Centre of the screen.

Enter MPRN Details

Select the MPRN tab and in the field labelled “Enter MPRN number,” type the 10-digit MPRN provided by the customer or system.

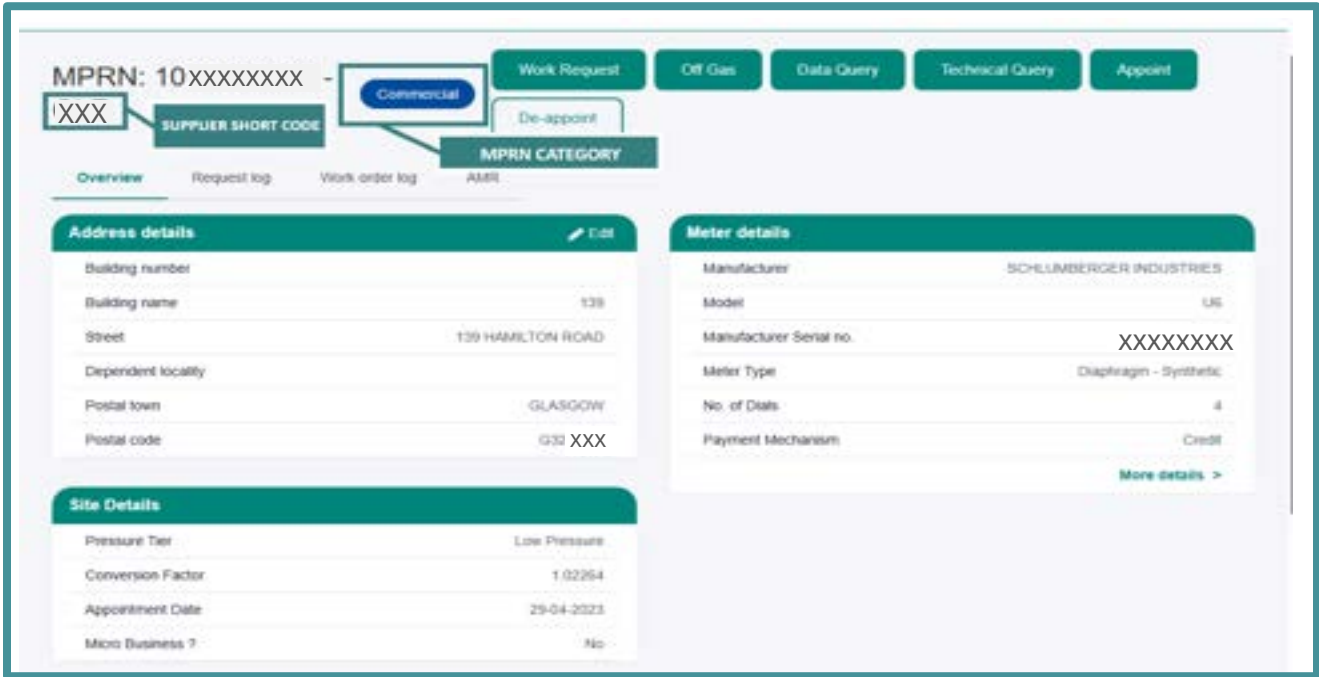

Also, from the adjacent dropdown User can also “Select Supplier Short codes,” choose the relevant job supplier short code.

Initiate Search

Click on the Search (🔍) icon to retrieve records.

View MPRN overview

After clicking the search icon, the system loads the **MPRN Overview Details page**, which displays:

- Supplier short code
- MPRN category (Residential/ commercial)
- Address details
- Site details
- Meter details
- Converter details (if present)

MPRN validation

After searching the MPRN, the **MPRN Overview page** is displayed. Users must review and validate the information shown on this page to ensure the correct MPRN record has been retrieved.

The following details must be validated:

- **Supplier short code and MPRN category** (e.g., Residential or Commercial).
- **Address details** associated with the MPRN.
- **Site details** of the MPRN.
- **Meter details**, including manufacturer, model, and serial number.
- **Converter details** (if a converter is present).
- **Request Log**, which displays all service requests raised for the MPRN.
- **Work Order Log**, which displays all work orders raised for the MPRN.
- **AMR details**, if an AMR device is attached to the MPRN.

Users must ensure that all displayed information matches the expected property and customer details before proceeding with any further action.
