Purpose

This document explains the procedure of capturing and verifying accurate on-site contact and access information which is provided by the user while raising any urgent work request, so the attending engineer can immediately reach the customer and access the premises without delay while handling an Urgent Work Request.

Steps to Provide Contact Details (on site) while raising Urgent work Request

Login to Portal

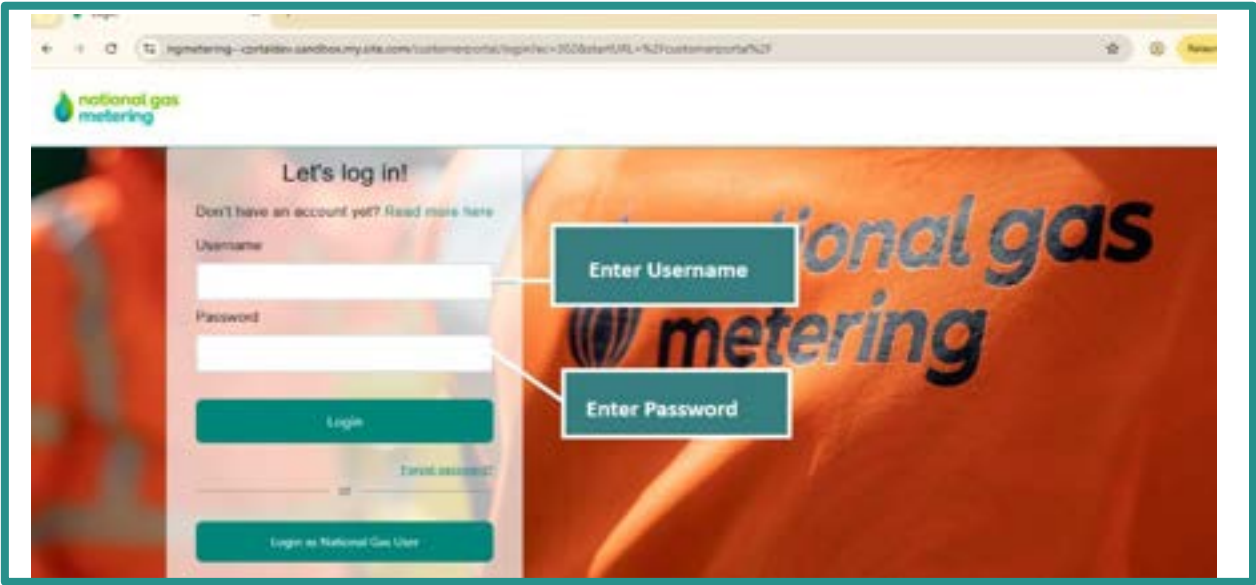

Open any web browser (chrome/edge) in the system and enter the URL below in the URL bar.

The URL to login to the customer portal is:

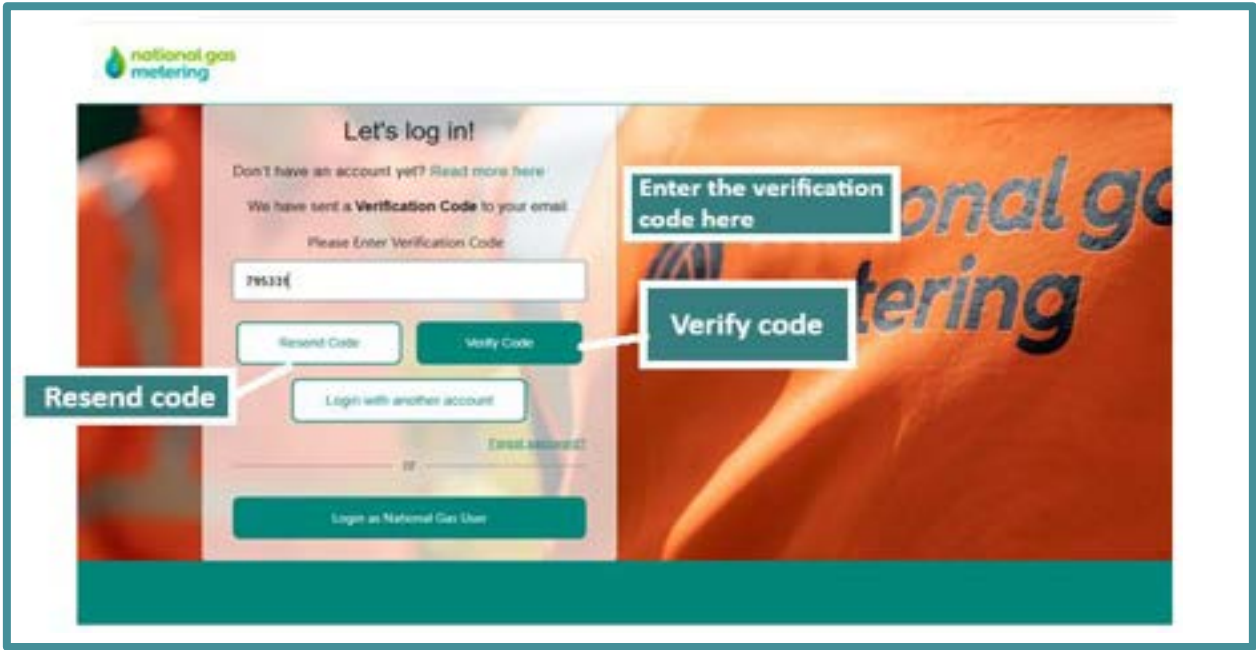

<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter.

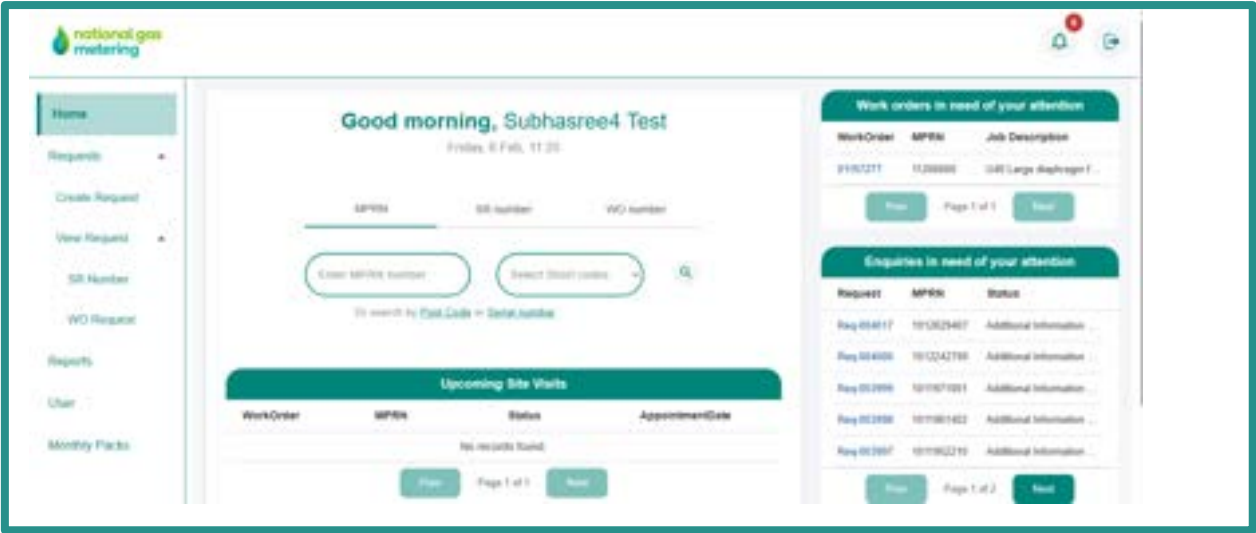

Enter the username and password, click on login.

Enter the verification code which is sent to the associate mail id and click on verify code.

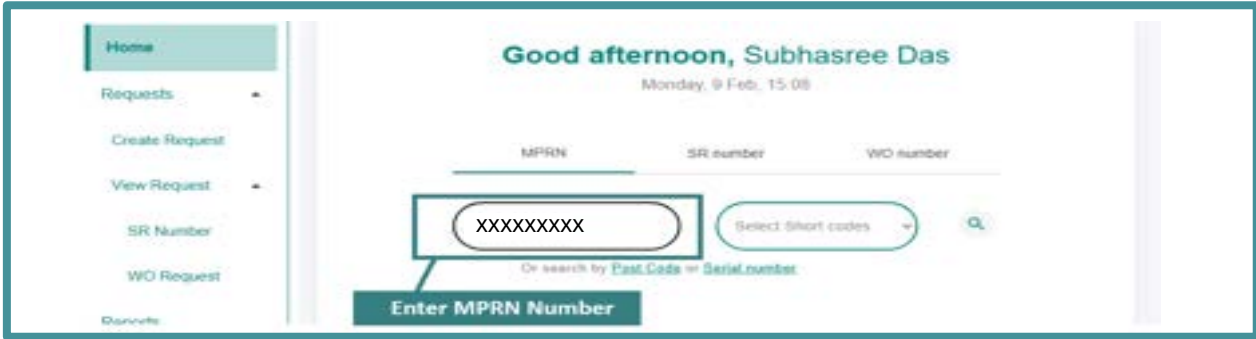

After logging in, the home screen of the customer portal is displayed.
The Home Screen will display the MPRN Search panel in the Centre of the screen.

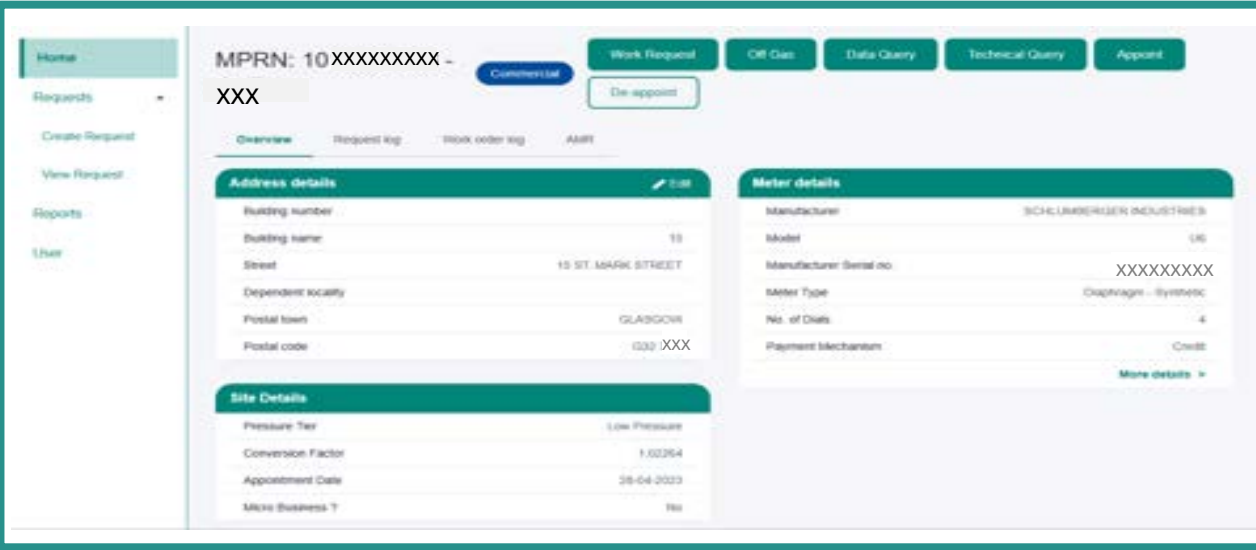

Search and Open MPRN

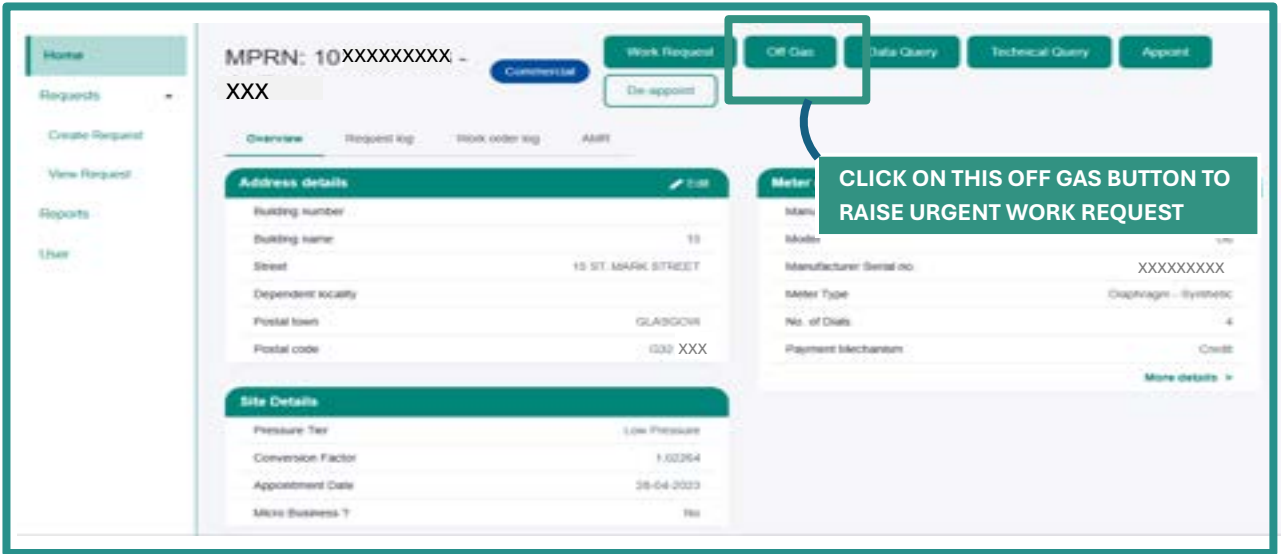

Enter the MPRN and click on search icon

MPRN overview page with MPRN details is displayed.
Validate the Supplier short code, MPRN category (e.g., Residential or Commercial), address and site details, Meter and converter (if present) details.

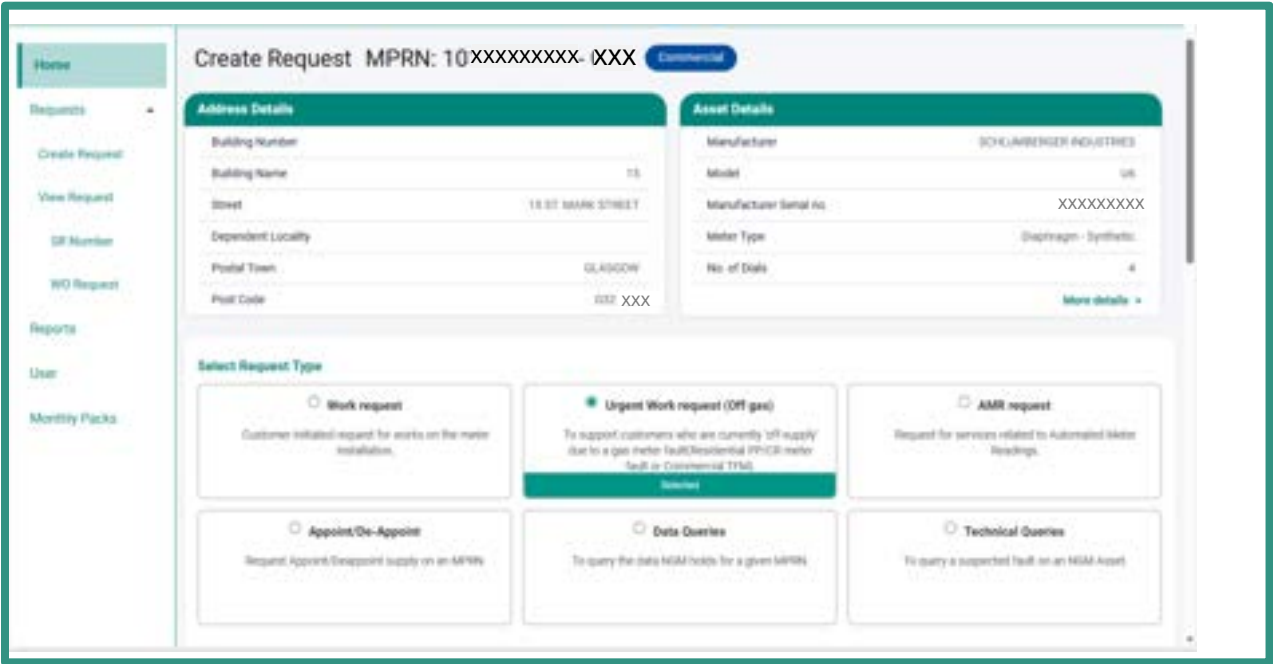

Click on Off Gas button to raise an urgent work request for the MPRN

Raise Urgent Work Request

Create request page is displayed with MPRN , supplier short code , address details and asset details.

Under select request type **Urgent Work Request (Off Gas)** is pre-selected automatically

Under Select Job type, Job type is automatically selected. If not then select the required job type

Select the start time of the job. User must select one of the following start options:

- Start Now – Engineer will attend the job immediately.
- Pick Date and Time – User has the ability to select a specific appointment slot for engineer attendance.

The screenshot shows the 'Select Job Type' section with 'Faulty Credit' selected. Below it, the 'Select Start' section has two options: 'Start Now' (selected) and 'Pick Date/Time'.

If User selects Pick Date/Time then they have to select appointment date and slot

The screenshot shows the 'Select Start' section with 'Pick Date/Time' selected. Below it, there are two input fields: 'Select Appointment Date' with a date picker and 'Select Appointment slot' with a dropdown menu.

The screenshot shows the 'Select Start' section with 'Pick Date/Time' selected. Below it, there is a calendar view for 'February 2025' and a list of appointment slots. The 'Contact details (on-site)' section is also visible.

Providing Contact Details (On site)

Navigate to the Contact details (on-site) section and fill following fields:

- **Title-** Select appropriate title from a picklist of titles for this field .It is a mandatory field, so user cant submit Urgent work request without filling up this field.
- **Name-** Enter full name of person present on site for this field. It is a mandatory field, so user cant submit Urgent work request without filling up this field.
- **Contact Number-** Enter active reachable number for this field, so that engineer can use this number to access the site. It is a mandatory field, so user cant submit Urgent work request without filling up this field.
- **Email Address (optional)-** Enter valid email address of the consumer for this field. But it is an optional field, so even without entering this field value Urgent work request can be submitted.
- **Meter Access Instructions (optional)-** Enter clear directions for the engineer to access the site for this field. But it is an optional field, so even without entering this field value Urgent work request can be submitted.
- **Upload Photos (optional)-** Upload photos of the site or assets for this field. But it is an optional field, so even without entering this field value Urgent work request can be submitted.

The screenshot shows a web form titled "Contact details (on-site)". The form contains the following fields:

- Title***: A dropdown menu with "Miss" selected.
- Name ***: A text input field containing "Taylor".
- Contact number ***: A text input field containing "62891098734".
- Email Address(optional)**: A text input field containing "taylor56@gmail.com".
- Meter access instructions (optional)**: A text area containing "Call on reaching site for access". Below the text area, it says "223 characters remaining".
- Upload Photos (Optional)**: A dashed box with the text "Drag & drop files here" and a link "Select photos from device".

A green callout box with the text "Fill in the contact details" has an arrow pointing to the form fields.

Validation rule for Contact Details (On site)

- Contact Number entered should be a valid phone number of 11 digits, otherwise portal will not accept the value.
- Email Address entered should be a valid email address, otherwise portal will not accept the value.
