 User Authentication in the Customer Portal..... 3

 Accessing the Customer Portal Home Screen 4

Purpose

This document describes the login functionality for external customers, including username entry, OTP verification, and successful access to the Customer Metering Portal. The objective is to ensure that all external users follow a consistent, secure, and compliant method to authenticate and access portal features.

Steps to Login to the Portal

Navigating to the Customer Portal Login Page

Open any web browser (chrome/edge) in the system and enter the below URL in the URL bar

The URL to login to the customer portal is:
<https://ngmcustomerportal.nationalgas.com/customerportal/login?ec> and press enter

User Authentication in the Customer Portal

Enter the username and password, click on login

Enter the verification code which is sent to the associated mail id and click on verify code .

If verification code is not received in the email , then click on Resend code and enter the resent code to the verification code field and click on verify code

Accessing the Customer Portal Home Screen

User is now logged in to the portal and home screen of the customer portal is displayed.
